No. 40 Marine.—The 24th April, 1928.—In exercise of the powers conferred by section 52 of the Inland Steam-Vessels Act, 1917 (I of 1917), the Governor in Council is pleased to make the following rules for the protection of inland steam and motor-vessels from danger by collision, in supersession of the rules published under this Department Notification No. 148 Mne., dated the 23rd August, 1900.

A. CASSELLS,
Secretary to the Government of Bengal.

RULES.

Preliminary.

These rules are applicable to, and shall be followed by persons in charge of, all inland steam-vessels, and all other vessels, hereinafter specified, on all inland waters in Bengal on which steam-vessels ply, provided that rules 8, 21, 22 and 23 shall not apply to steam-vessels plying on the river Hooghly, between a line drawn west of Saugor Island Lighthouse and the northern boundary of the Port of Calcutta.

For the purposes of these rules—

(*a*) a vessel shall be deemed to be "underway" when she is not at anchor or made fast to the shore or aground, and

(*b*) the word "visible" when applied to lights shall mean visible on a dark night with clear atmosphere.

(*c*) The word "steam vessel" shall include any vessel propelled by machinery.

Rules Concerning Lights, etc.

Article 1.—The rules concerning lights shall be complied with in all weathers from sunset to sunrise, and during such time no other lights which may be mistaken for the prescribed lights shall be exhibited.

Article 2.—(*1*) A steam-vessel when underway shall carry—

(*a*) in the forepart of the vessel above the awning roof a bright white light so constructed as to show an unbroken light over an arc of the horizon of 20 points of the compass, so fixed as to throw the light 10 points on each side of such vessel, *viz.*, from right ahead to 2 points abaft the beam on either side, and of such a character as to be visible at a distance of at least 2 miles;

(*b*) on the starboard side a green light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to 2 points abaft the beam on the starboard side, and of such a character as to be visible at a distance of at least 1 mile;

(*c*) on the port side a red light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to 2 points abaft the beam on the port side, and of such a character as to be visible at a distance of at least 1 mile.

(*2*) The said green and red side-lights shall be fitted with inboard screens projecting at least 3 feet forward from the light, so as to prevent these lights from being seen across the bow.

Article 3.—(*1*) A steam-vessel when towing other vessels which are lashed alongside shall have the white masthead light and the red and green side-lights so placed that they will be visible as set forth in Article 2 (*1*).

(*2*) When vessels are being towed alongside the side-lights prescribed in Article 2 (*1*) (*b*) and (*c*) shall be carried on the outermost side of the outermost vessel on each side. None of the other vessels shall exhibit side-lights.

(*3*) In cases in which a flat or other vessel is being towed by two steam-vessels lashed alongside on each side they shall have the white masthead light and the red and green side-lights so placed that they will be visible as set forth in Article 2 (*1*), *i.e.*, the white light prescribed in Article 2 (*1*) (*a*) shall be carried on the vessel towed, the green and red lights prescribed by Article 2 (*1*) (*b*) and (*c*) being carried by the steam-vessels lashed to the starboard and port sides respectively of the vessel towed. Such steam-vessels together with the vessel towed by them shall be taken as one vessel for the purpose of this rule.

(4) A steam-vessel when towing other vessels astern shall, in addition to her side-lights, carry two bright white lights in a vertical line one over the other not less than 3 feet apart in the fore part of the vessel. Each of these lights shall be of the same construction and character as the light prescribed in Article 2 (a).

Article 4.—All vessels under oars or sails when under way, and all vessels being towed astern shall not be obliged to carry the lights mentioned in Article 2 (1) (b) and (c) but if they do not carry them they shall, in those cases where there is a mast, carry thereon a white light in a lantern so constructed as to show a clear, uniform and unbroken light visible all round, and in those cases where there is no mast, shall show continuously a similar white light from a conspicuous position so as to be visible all round.

Article 5.—A vessel which is being overtaken by another, shall show from her stern to such last mentioned vessel a white light.

Article 6.—Every vessel, when at anchor, or made fast to the shore or to a jetty or landing stage or to another vessel not underway, shall carry where it can best be seen, a white light in a lantern so constructed as to show a clear, uniform and unbroken light visible all round at a distance of at least 1 mile.

A vessel aground in or near a fairway shall carry the above light.

Article 7.—A steam-vessel using the electric search-light shall on meeting another throw the light broadly on that side of the river which she intends to take. When a steam-vessel makes fast to allow another such vessel to pass, the search-light of the stationary vessel shall be either extinguished or be kept broad on the bank until the moving vessel has passed.

Article 8.—Whenever a red cone or red flag is hoisted by a dredger it shall be taken as a warning by other vessels not to pass her as she is engaged in dredging.

Sound Signals for Fog, etc.

Article 9.—All signals prescribed by this article for steam-vessels underway shall be given on the whistle or siren.

The words " prolonged blast " used in these rules shall mean a blast of from 4 to 6 seconds duration.

A steam-vessel shall be provided with an efficient whistle or siren, sounded by steam or some substitute for steam, so placed that the sound may not be intercepted by any obstruction, and also with an efficient bell.

In fog, mist or heavy rain-storms, whether by day or by night, the signals shall be used in the following manner:—

(a) A steam-vessel having way upon her shall sound at intervals of not more than two minutes, a prolonged blast.

(b) A steam-vessel underway, but stopped and having no way upon her, shall sound at intervals of not more than two minutes two prolonged blasts, with an interval of about one second between them.

(c) A steam-vessel, when at anchor, shall at intervals of not more than one minute, ring the bell rapidly for about five seconds.

Speed of Ships to be Moderate in Fog, etc.

Article 10.—(1) Every steam-vessel shall, in a fog, mist or heavy rain-storms, proceed at a moderate speed, having careful regard to the existing circumstances and condition.

(2) A steam-vessel hearing apparently forward of her beam, the fog-signal of any other vessel, the position of which is not ascertained, shall, so far as the circumstances of the case admit, stop her engines, and then navigate with caution until danger of collision is over.

General Warning Signals.

Article 11.—One prolonged blast shall be given to convey a warning in the following cases:—

(a) When a steam-vessel approaches her destination.

(b) To attract the attention of other vessels, especially native craft.

(c) On approaching a bend in the channel.

STEERING AND SAILING RULES.

Article 12.—When two steam-vessels are meeting end on, or nearly end on, so as to involve risk of collision, each shall alter her course to starboard so that each may pass on the port side of the other.

This Article only applies to cases where vessels are meeting end on, or nearly end on, in such manner as to involve risk of collision and does not apply to two vessels which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are when each of the two vessels is end on, or nearly end on, to the other, and by night, to cases in which each vessel is in such a position as to see both the sidelights of the other.

It does not apply, by day, to cases in which a vessel sees another ahead crossing her own course, or by night to cases where the red light of one vessel is opposed to the red light of the other, or where the green light of one vessel is opposed to the green light of the other, or where a red light without a green light, or a green light without a red light, is seen ahead; or where both green and red lights are seen anywhere but ahead.

Article 13.—When two steam-vessels are crossing, so as to involve risk of collision, the vessel which has the other on her own starboard side shall keep out of the way of the other.

Article 14.—When a steam-vessel and a sailing vessel are proceeding in such directions as to involve risk of collision, the steam-vessel shall keep out of the way of the sailing vessel.

Article 15.—Where by any of these rules one of two vessels is to keep out of the way the other shall keep her course and speed.

Provided that when, in consequence of thick weather or other cause, the vessel which should be given way to, finds herself so close that collision cannot be avoided by the action of the 'giving-way vessel alone, she also shall take such action as will best aid to avert collision.

Article 16.—Every steam-vessel, which is directed by these rules to keep out of the way of another vessel shall, if the circumstances of the case admit, avoid crossing ahead of the other.

Article 17.—Every steam-vessel, which is directed by these rules to keep out of the way of another vessel shall, on approaching her, if necessary, slacken her speed or stop or reverse.

Article 18.—Notwithstanding anything contained in these rules, every steam-vessel overtaking any other shall keep out of the way of the overtaken vessel.

Every steam-vessel coming up with another vessel from any direction more than two points abaft her beam, *i.e.*, in such a position with reference to the vessel which she is overtaking that at night she would be unable to see either of that vessel's sidelights, shall be deemed to be an overtaking vessel; and no subsequent alteration of the bearing between the two vessels shall make the overtaking vessel a crossing vessel within the meaning of these rules or relieve her of the duty of keeping clear of the overtaken vessel until she is finally past and clear.

As by day the overtaking vessel cannot always know with certainty whether she is forward of or abaft this direction from the other vessel she should, if in doubt, assume that she is an overtaking vessel and keep out of the way.

Article 19.—In narrow channels every steam-vessel shall, when it is safe and practicable, keep to that side of the fairway or midchannel which lies on the starboard side of such vessel.

Article 20.—In obeying and construing these rules due regard shall be had to all dangers of navigation and collision, and to any special circumstances which may render a departure from the above rules necessary in order to avoid immediate danger.

Article 21.—When two steam-vessels, with or without flats in tow, meet in a narrow channel or at a place where the presence of a third vessel makes it difficult to pass, the one going against the current shall slacken her speed until the other has passed clear or when meeting at the bend of a narrow river or channel the vessel going against the current shall stop and remain under the point until the other vessel has passed clear.

Exception.—In straight or nearly straight reaches of a river or channel that is so narrow that it will not allow two steam-vessels meeting, with or without flats in tow, to pass each other without one of them stopping and making fast to the bank, the vessel proceeding with the current shall make fast to allow the vessel going against the current to proceed past at a slow speed. If it is necessary to cast off a flat or flats, the vessel going against the current shall drop one flat astern and if there is still insufficient room then the vessel that is made fast shall also cast off one of her flats.

Article 22.—When two vessels meet in large rivers, such as the Brahmaputra or Ganges, where shoals and narrow channels are encountered, the upward steamer proceeding against the current shall stop below the shoal giving the downward steamer proceeding with the current a clear fairway.

Article 23.—No steam-vessel shall attempt to strive or race against another. When steam-vessels are proceeding in the same direction, but with unequal speed, the vessel which is steaming slowest shall in the narrow reaches of a river offer no obstruction whatever by crossing the channel or otherwise to the free passage of the faster vessel, and shall ease and if necessary stop the engines as soon as the faster vessel comes abreast in order to allow her to pass freely. The master or pilot of the faster vessel if intending to pass, shall intimate such approach by a prolonged blast from his steam whistle. But no vessel shall pass another vessel at any of the turning points or bends of a river, or in a part of the channel so narrow that a third vessel could not with safety pass them.

Article 24.—No steam or motor-vessel shall get under way, either from her anchor or from the river bank, and turn across the river when another vessel is seen approaching from either up or down stream at such a distance that it is doubtful whether the approaching vessel can safely pass her before the turning round or crossing of the river is completed.

Article 25.—When two steam-vessels proceeding in opposite directions are likely to meet at the junction of two rivers, the vessel in the wider of the two steams shall not attempt to enter the narrower river, until the vessel in such latter river has passed out.

Sound Signals for Vessels in Sight of one another.

Article 26.—The words "short blast" used in this rule shall mean a blast of about one second's duration.

Every steam-vessel under way shall, when in sight of any other vessel, in taking any course authorised or required by these rules, indicate that course by the following signals on her whistle or siren, *viz.*:—

One short blast to mean, "I am directing my course to starboard."

Two short blasts to mean, "I am directing my course to port."

Three short blasts to mean, "My engines are going full speed astern."

Proper Precautions to be Taken in all cases.

Article 27.—Nothing in these rules shall exonerate the owner, or master, or crew of any steam-vessel from the consequences of any neglect to carry lights or signals or of any neglect to keep a proper lookout, or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

NOTE.—The practice of conning inland steam-vessels from a position alongside of, or between, flats which obstruct the view, will be considered a breach of this article. Navigation should be controlled from a position which gives a clear view ahead and to two points abaft the beam on either side.

Penalty for Disobedience of the Rules.

Article 28.—Any person committing a breach of any of these rules shall, for each offence, be punished with imprisonment for a term which may extend to six months, or with fine which may extend to five hundred rupees, or with both.

PART VI.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 22nd March, 1928 :—

LEGISLATIVE ASSEMBLY BILL NO. 19 OF 1928.

A Bill to alter the order in which certain heirs of a deceased Hindu dying intestate are entitled to succeed to his estate.

WHEREAS it is expedient to alter the order in which certain heirs of a deceased Hindu dying intestate are entitled to succeed to his estate ; It is hereby enacted as follows :—

Short title, extent and application.

1. (*1*) This Act may be called the Hindu Law of Inheritance (Amendment) Act, 192 .

(*2*) It extends to persons subject to the Law of the Mitakshara country who, but for the passing of this Act, would have been subject to the said law, whether as a paramount authority, or not, in respect of the provisions herein enacted : but it applies only in the case of the property of Hindus, not being held in coparcenary and not having been disposed of by will, to which the succession opens after the thirty-first day of July 1928.

Definitions.

2. In this Act,—

(*a*) "Hindu" means a person of the male sex governed by the Mitakshara law of inheritance ;

(*b*) "order of succession" means the order in which, according to the Mitakshara law of inheritance as administered in the territories to which this Act extends, the relations of a deceased Hindu succeed to his estate or to any portion thereof ; and

(*c*) "son" includes an adopted son, provided that, in the case of the adoption of a son to a sister's husband, the adoption has been made with the consent of that sister during her lifetime.

Order of succession of certain heirs

3. A son's daughter, daughter's daughter, sister, and sister's son shall, in the order so specified, be entitled to rank in the order of succession next after a father's father and before a father's brother.

Savings.

4. Nothing in this Act shall—

(*a*) affect any special family or local custom having the force of law, or

(*b*) vest in a son's daughter, daughter's daughter or sister an estate larger than, or different in kind from, that possessed, according to the Mitakshara law of inheritance as administered in the territories to which this Act extends, by a female in property inherited by her from a male, or

(*c*) enable more than one of several sons' daughters, daughter's daughters, sisters or sister's sons to succeed by inheritance to the estate of a deceased Hindu male which by a customary or other rule of succession descends to a single heir.

STATEMENT OF OBJECTS AND REASONS.

(1) This Bill is a revival of a similar Bill introduced by the late Mr. T. V. Seshagiri Ayyar and passed by the first Assembly on the 27th March 1923. Its consideration in another place was moved on the 19th July 1923, but postponed to the next session, when no further action being taken, the Bill was suffered to lapse.

(2) The Bill is intended to remove a sex disqualification which under the archaic rules of Hindu Law excludes one's nearest female relations, *e.g.*, the sister, the son's daughter and the daughter's son, from inheritance altogether, while it gives the sister's son a very low place amongst *bandhus* who can only take in the absence of *gotraja sapindas* and *samanodaks*, that is to say, the owner's agnatic relations even up to the 14th and later degrees, which gives him a very poor chance of succession in many cases. This condition is somewhat ameliorated in the case of persons subject to the Mayukh law where usage has given female heirs a somewhat better position, though in the case of persons subject to the Dayabagh School of Law certain *bandhus* are not considered inferior to the *gotrajas*: till even under that system the sister is not an heir though the sister's son is expressly mentioned in the Dayabagh as the heir while the son's daughter and the daughter's daughter have no place at all. In fairness to Bengal the Bill should have been extended even to that Province but an objection was taken in the first Assembly to its extension to that Province and its provision was, therefore, restricted to the two Provinces of the Mitakshara country.

(3) The Bill is intended to include the son's daughter, daughter's daughter, and the sister amongst heritable *bandhus* which they are not under the Hindu Law, and improves the position of the sister's son by placing him immediately after the grandfather but before the grand uncle.

(4) This does not exhaust a very large number of female relations, *e.g.*, the son's son's daughter, the brother's daughter, the sister's daughter, who still remain outside the pale of heritable *bandhus*. But the Bill being merely a revival of the Bill already passed by the Assembly it is not proposed to enlarge upon its provisions for the present, though the whole law of Hindu inheritance is unsatisfactory and does not follow the line of affinity and affection, placing as it does agnatic kinsmen however remote above all cognatic relations however near.

(5) The Bill will not make any serious inroad upon the law as understood in the Province subject to Mayukh, nor will it seriously affect the law as understood in the Province of Madras where female *bandhus* are allowed to rank but only after all the male *bandhus* are exhausted.

(6) The previous Bill passed by this Assembly was limited only to the two Provinces of Madras and United Provinces, but the reason for this limitation is not understood nor was it clear to the Council of State who gave it as one of their reasons for postponing its consideration. It is hoped that the small Bill intended to rectify a glaring injustice to one's nearest relations will receive the same support as its predecessor and that this time it will find a place on the Statute-book.

16. Every privy must be constructed in accordance with the following provisions :—

(*b*) the space beneath the platform of the privy must be of such dimensions as to admit of two moveable receptacles for solid and liquid excreta, each of a capacity not exceeding one cubic foot, being placed and fitted beneath the platform in such manner and position as will effectually prevent the deposit otherwise than in such receptacles of any sewage falling or thrown through the apertures of the platform ;

(*c*) the privy must be so constructed as to afford adequate access to the said space for the purposes of cleansing such space and of placing therein and removing therefrom proper receptacles for sewage ;

193 A. If at any time, either before or during construction of a work estimated to cost not less than Rs. 1,000, any officer, of a rank not lower than that of a Divisional Officer, in charge of a work finds that the original estimate is excessive and that the tenders for the work received are based on rates not less than 10 per cent lower in case of projects costing up to Rs. 50,000 and not less than 5 per cent. lower in case of projects costing over Rs. 50,000, he should sanction a revised estimate for it on the basis of the tenders received, even though the amount of such revised estimate may exceed that to which he is ordinarily empowered to accord sanction. In cases where detailed sub-heads are not required to be maintained under Public Works Department letter No. 1428-33 A., dated the 28th March 1921, sanction may be accorded to the reduced amount without revising abstracts of cost, but in the case of estimates for which detailed sub-heads are required to be maintained in the register of works the reduced amount should be arrived at by revising the abstracts of estimates.

2. The officer according sanction to such a revised estimate should at the same time reduce correspondingly the appropriation made to meet the cost of the work.

3. The Divisional Officer's power to pass excesses over such revised estimates will be restricted to 5 per cent. of the reconstructed estimate and to the limit of his power to sanction estimates technically.

23 If the Chief Inspector of Factories has reason to believe that there is a defect or deficiency in the machinery, plant or structure of a factory which in his opinion may endanger human life or safety, the occupier or manager of such factory shall, if called upon to do so by the Chief Inspector of Factories, supply such drawings, specifications or particulars, and carry out such examination or tests as may, in the opinion of the Chief Inspector of Factories, be necessary to determine whether such machinery, plant or structure may be used with safety

79. **Powers of Inspectors.**—An Inspector may, together with such assistants, if any, as he may think fit to bring, enter any place within the area for which he is appointed, which is, or which he has reason to believe to be, used as a factory; and there make such examination of the premises, ways, works, machinery and plant, and of all registers or other prescribed records as may be necessary for the purposes of the Act; and he may take on the spot or otherwise, such evidence of any persons as he may think necessary to examine.

80. In addition to the powers mentioned in rule 79, an Inspector may, subject to such restriction as may be notified by the local Government with regard to him, exercise such other powers as may be necessary for carrying out the purposes of the Act.

81. **Obstructing an Inspector.**—The manager or occupier of a factory shall not obstruct or permit to be obstructed by any person in the factory an Inspector in the exercise of his duty, and shall not fail to produce on demand by an Inspector any registers or other documents prescribed by these rules and shall not conceal, or prevent or attempt to prevent, any person employed in the factory from appearing before, or being examined by, an Inspector; and shall not withhold such information as the Inspector may require under these rules; provided that no person in any factory shall be required to answer any question of, or to give any evidence to, an Inspector tending to criminate himself.

82. **Duties of an Inspector.**—The Inspector shall give to the manager or occupier of every factory within the local limits for which he is appointed such orders as may be required to bring the factory and the persons therein employed into complete conformity with the Act and these rules. Such orders shall be confirmed in writing.

83. A Register of Factories compiled from information received on Form A shall be maintained by the Chief Inspector of Factories, and an extract giving details of factories for each district shall be sent on or before the 15th February of each year to the District Magistrate concerned. All changes in the list which may be made in pursuance of rules 5, 6, 7, 75 and 76 shall also be intimated to the District Magistrate as and when such changes are made.

84. Every Inspector subordinate to another Inspector shall furnish the latter with all such reports and information as may be necessary to him for the proper execution of his duties.

85. **Responsibilities of Inspector.**—The Chief Inspector shall be primarily responsible for the administration of the Act in all areas of the Province. The extent of the responsibility of each other Inspector shall be in accordance with the powers conferred upon him as declared by notification under sub-section *(5)* of section 4. In order that he may satisfy himself that the provisions of the Act and of these rules are duly observed, an Inspector shall make such inspections of factories as may appear to be necessary to him, or to the authority to whom he is subordinate.

86. The Inspector shall, at each inspection of a factory, satisfy himself that the provisions of the Act and of these rules relating to the health and safety of the persons employed therein, are duly observed ; that the children employed in the factory have been duly certified and that the prescribed register of children is properly maintained ; that the hours of employment of all persons working in the factory are properly and continuously recorded in the prescribed register ; that the periodical stoppages of work and the prescribed holidays are granted ; that the prescribed limits of hours of work are not exceeded and that the prescribed abstracts and notice are duly maintained and fixed

under section 36 ; and he shall note how far defects pointed out at previous inspections have been removed, and how far orders or recommendations previously issued have been complied with.

87. The Inspector at each inspection shall enquire, sufficiently to ascertain where the responsibility for their occurrence rests, into all accidents which may have taken place since the last inspection, and shall pass such orders or recommendations as may be proper for the prevention of such accidents. The Inspector shall report all such enquiries made by him, and a copy of the report shall be sent to the manager or occupier of the factory concerned.

88. **Report of Inspection.**—As soon as practicable after inspection, the Inspector shall report upon such conditions of the factory as are contrary to the Act or to these rules or as may seem to him to require comment. A copy of such report shall be sent to the manager or occupier.

89. Such extracts from the report of an Inspector made under rules 86, 87 and 88, as may be necessary for his information, shall be furnished to the District Magistrate by the Inspector, either directly, or through the Chief Inspector.

90. In the case of factories situated in places coming under the Municipal Act, if it appears that there has been a disregard of the provisions of any municipal or other local Act relating to sanitary arrangements, removal of objectionable rubbish, the cleaning and fencing of water tanks or the like matters, the Inspector shall, without prejudice to any action which he is empowered to take under the Act and rules, draw the attention of the Chairman of the municipality or other local body to the breach of the sanitary regulations in question.

91. **Inspection by District Magistrate or Additional Inspector.**—When in any area the District Magistrate or an additional Inspector exercising all or any of the powers of an Inspector makes an inspection, a copy of his note on the inspection shall be sent to the whole-time Inspector appointed for that area for such action as the latter may think necessary, as well as to the manager if the Magistrate considers it desirable.

92. **Disuse of Dangerous Plant.**—Pending the execution of an order under rule 82, the Inspector may, when there is imminent danger to human life, prohibit the use of that part of the ways, works, machinery or plant to which the order relates.

93. **Inspector's Records.**—Every Inspector shall keep a record of all orders and remarks made by him relating to each inspection.

94. Any certificate, order, letter, report, or other document issued by an Inspector of Factories or other officer duly appointed in this behalf by the Government or by a Municipality or by other public body, with respect to the fitness or safety of the factory or any portion of its buildings, works, plant, machinery, apparatus, or ways, or with respect to the fitness of persons employed in the factory, shall be properly filed and exhibited to the Inspector on his demand.

95. A request by the Inspector for information necessary to establish—

(*a*) the observance or otherwise of any provision of the Act,

(*b*) the execution or observance of any order of an Inspector, or

(*c*) the condition, age, or history of any part of the factory, its plant, machinery, apparatus, or ways, so far as such may be an indication of safety or danger in the use of such objects,

if made during an inspection, shall be complied with forthwith by the manager or occupier if the information is available in the factory; and if made by letter, shall be complied with by the manager or occupier within seven days from the date of receipt, or as soon afterwards as the information can be obtained.

96. **Appeal against an Order of an Inspector.**—Any person on whom an Inspector has served one or more of the following orders may, within 14 days from the receipt of such order or orders, appeal in the form prescribed

in rule 78 to the Commissioner. The appellate authority may confirm, modify or reverse the order or orders :—

(*a*) An order specifying the measures to be taken to remove conditions of danger which the Inspector considers to exist in contravention of rule 8, 9 or 10.

(*g*) An order prohibiting the presence in a factory or in any part of a factory of children whose age is less than that at which they may be legally employed in a factory, which the Inspector considers to be required under section 19A.

97. When an appeal against the order of an Inspector is presented under rule 96, the appellate authority may, and, if so requested by the appellant in his petition of appeal, shall, hear the appeal with the aid of two assessors.

98. When assessors are to be employed in the hearing of an appeal against the order of an Inspector, the appellate authority shall call upon the body which is considered most representative of the industry concerned to appoint one of the assessors within a period of fourteen days. When such assessor has been so appointed, the appellate authority shall appoint the other assessor; and shall then fix the place, day and time for hearing the appeal, of which due notice shall be given to the appellant and to the Inspector against whose order the appeal has been presented, and shall call upon the two assessors to appear and assist in the hearing of the appeal at the appointed place and time :

Provided that if no assessor is appointed by the aforesaid body within the prescribed period, or if the assessor so appointed fails to attend at the appointed time and place, the appeal may be heard without such assessor, or, if the appellate authority thinks fit, without the aid of any assessor, unless the appellant at whose request the assessor was appointed objects to the hearing of the appeal.

99. An assessor appointed under rule 98 shall receive a fee of Rs. 32 and travelling expenses for assisting in the hearing of the appeal. Such fees and travelling expenses shall be paid by the local Government, except that in cases wherein the assessors have been appointed at the request of an appellant against whom the appeal is decided wholly or partly, the appellate authority may direct that the fees and travelling expenses shall be paid wholly or in part by such appellant.

100. **Suspension of Orders while under Appeal.**—When an appeal is presented against the order of an Inspector, unless it is an appeal under clause (*g*) of rule 96, the appellate authority may, on the application of the appellant, suspend the operation of the order of the Inspector pending the decision of the appeal: but where no such suspension has been granted, the Inspector's orders shall be complied with, notwithstanding that the appeal against it has been presented.

2. The amendments take effect from the 1st April, 1928, but any individual case which may have arisen after the 9th July, 1926, to which these amendments, if issued earlier, would have applied will be considered on its merits.

ORDERED that the resolution be published in the *Gazette of India*.

"[illegible], 155A, 155B and 163".

PART II, DIVISION VI.

Insert the following below the heading of section XVII and number it as sub-section (*i*) :—

"Sub-section (*i*). Journey performed by an officer of a Superior Civil Service, who is of non-Asiatic domicile, or by a member of his family to obtain medical treatment or advice."

and insert the following as Rules 155A and 155B below that sub-section :—

155A. When a member of a Superior Civil Service being of non-Asiatic domicile is serving in a station where there is no medical officer appointed by Government to attend him and when such officer or a member of his family requires medical treatment or advice—

(*i*) travelling allowance for the journey to and from the nearest station where there is such a medical officer may be granted to the officer or member of his family, or

(*ii*) in the alternative, if the patient is too ill to travel, travelling allowance may be granted to the nearest such medical officer from and to his headquarters.

In either case the application for travelling allowance must be supported by a certificate signed by the medical officer in question to the effect that medical treatment or advice was necessary, and, in the case of (*ii*), that the patient was too ill to travel. The controlling officer may require this certificate to be countersigned by the Administrative Medical Officer of the Province.

Explanation.—For the purposes of this rule "Superior Civil Service" includes all services and posts named in the Superior Civil Services (Revision of Pay, Passage and Pension) Rules, 1924, or declared "superior" under section 67A or section 72D of the Government of India Act.

155B. In the case of officers to whom Rule 155A applies and members of their families, if the medical officer first consulted considers the case to be of such a serious or special nature that he is unable or unwilling to treat it, he may, with the approval of the Administrative Medical Officer of the Province, which must be secured beforehand in all cases where this is possible without danger to the patient—

(*i*) give a certificate authorising the officer or member of his family to draw travelling allowance to the nearest station where adequate treatment is available, or

(*ii*) in the alternative, certify that the patient is not fit to travel and that a specialist should be summoned from another station, and a certificate to this effect will authorise the specialist so called in to draw travelling allowance from and to his station.

Insert the following above Rule 156 and number it as sub-section (*ii*) :—

"Sub-section (*ii*). Journey performed by other Government servants to obtain medical advice."

Insert the following above Rule 162 and number it as sub-section (*iii*) :—

Third and Final Forecast of the Spring Oilseed crops of Bengal, 1927-28.

(NOTE. On an average of the five years ending 1925-26, the area under linseed in Bengal has represented some 3·4 per cent. and that under rape and mustard 11 6 per cent. of the total area under these crops in British India.)

Character of the Season.—In the second forecast the weather was reviewed as having been favourable in the early stages of the season; but lack of adequate soil moisture since the latter part of October affected later sowings and development of early sown crops, especially in parts of West and North Bengal. Late sown crops also suffered through absence of rain, although rainfall in the end of January somewhat improved their prospects. On the whole, the season was fair in East and parts of North Bengal, while elsewhere it was generally unfavourable.

Acreage.—Oilseeds are principally grown in the Rajshahi, Dacca and Presidency Divisions. In the other two divisions the cultivation is small. The total area under these crops (excepting sesamum, for which separate forecasts are issued) is estimated at 900,600 acres this year as against 936,500 acres last year.

Outturn.—From the District Officers' estimates the provincial outturn of the different oilseed crops works out at 69 per cent. of the normal as against 78 per cent. last year.

Taking 5¾ maunds as the normal rate of yield per acre for linseed, 6 maunds for rape and mustard and 4½ maunds for other oilseeds, the total yield of the crops for the province is estimated at 133,500 tons this year as against 146,900 tons or about 15 per cent. less than last year.

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Forecast of the Wheat Crop of Bengal, 1927-28.

NOTE.—On an average of the five years ending 1925-26, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (a) British India and (b) in the territory now reported on has, in the five years ending 1925-26, averaged (a) 39·0 and (b) 14·2 per cent., respectively.

Character of the season.—In the initial stages of the season the weather was favourable for cultivation and for early sowings, but prolonged drought delayed later sowings and affected the growth of early crops in the high land tracts. Rainfall in the months of January and February improved prospects to some extent in the important district of Malda, but full recovery was impossible. Excepting in Mymensingh, Jalpaiguri, Darjeeling and Rangpur, the season was altogether unfavourable for the crop.

Acreage.—According to the estimates of District Officers, the total area sown is 106,600 acres this year as against 129,300 acres last year.

Outturn.—The provincial outturn as worked out from the district estimates is 64 per cent. of the normal as against 81 per cent. last year.

Taking the normal yield to be 8⅞ maunds per acre, the gross yield of the crop for the province is estimated at 21,900 tons this year as against 32,100 tons or about 32 per cent. less than last year.

At the end of April the average wholesale price of wheat at the principal marts of the province was Rs. 6-8-8 per maund or about 4 per cent. higher and 6 per cent. lower than the prices ruling, respectively, in the corresponding period of last year and in the year preceding. The average wholesale price of common rice at the principal marts, on the other hand, was Rs. 7-7-3 per maund or about 1 and 4 per cent. higher than the prices ruling at the corresponding periods of last year and the year preceding, respectively.

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for April 1928.

I. **Character of the season.**—During the first nineteen days of the month, moderate rain fell almost throughout the province, after which the weather was practically dry. The precipitation was above the average in the 24-Parganas, Bankura, Midnapore, Hooghly, Howrah, Dinajpur, Rangpur, Darjeeling and Cooch-Behar. The usual rainfall-statement is appended.

II. **Progress of agricultural operations.**—Sowing of jute and autumn paddy was approaching completion in the lowland tracts of East and North Bengal and was in progress in the highland tracts. Weeding continued.

III. **State of standing crops.**—The condition of young jute, *bhadoi* paddy and sugarcane plants was satisfactory, although more rain was needed to help their growth.

IV. **Prospects and probable outturn.**—The prospects of sugarcane, jute and deep-water paddy were promising. The total outturns of wheat and different spring oilseed crops were 64 and 69 per cent., respectively, of the normal for the province, as a whole.

V. **Damage to standing crops.**—No appreciable damage was done to the standing crops except in the highlands, where prospects are being threatened by drought.

VI. **Condition of agricultural stock.**—The condition of agricultural stock was, on the whole, fair. Stray cases of cattle-disease were, however, reported from thirteen districts.

VII. **Failure of pasturage and fodder.**—Insufficiency of fodder was reported from parts of the 24-Parganas, Nadia, Murshidabad, Burdwan, Rajshahi and Malda.

VIII. **Prices of food-grains.**—During the second fortnight of the month the retail price of common rice of the cheapest quality rose in eleven districts, fell in two and remained stationary in the rest of the Presidency. It varied from 4¼ seers per rupee in Pabna to 7 seers per rupee in Chittagong.

IX. **Condition of agricultural population.**—The condition of the agricultural population was fair, on the whole, except in parts of Nadia, Murshidabad, Birbhum, Bankura, Dinajpur and Malda, where distress continued to prevail owing to a partial failure of the winter rice crop. Test and other relief works continued to help the condition of the people of these places.

Notifications—By the Government of India, Department of Education, Health and Lands.

Simla, the 2nd May 1928.

NOTICE.

A competitive examination for admission to the Indian Forest Service will be held at Delhi beginning on Monday, the 20th August 1928, under rules which have been framed by the Secretary of State for India in Council and which are printed at pages 457 to 462 of this Gazette*. Candidates accepted for admission to the examination will be informed at what place in Delhi and at what hour they should present themselves.

1. The number of candidates to be selected at this examination will be announced hereafter. The number of appointments which will be announced for competition will not represent the total number of vacancies to be filled in India, since certain vacancies will be reserved and will be filled, if necessary, by nomination for the purpose of adjusting Communal inequalities which may arise from the result of the examination.

2. No candidates will be admitted to the examination from whom the Authority mentioned below has not received on or before the 16th June 1928, an application on the prescribed form accompanied by the necessary documents. Copies of the Application Form may be obtained from that Authority.

3. The application must be made to the proper Authority for the area in which the candidate's parents reside at the time of the application, or of an area in which they have previously resided for a period of not less than three years, or in which he has himself resided, otherwise than as a student at a University only, for a like period.

The proper authority is for a Governor's Province, the Chief Secretary; for Coorg, the North-West Frointer Province, Delhi, Ajmer-Merwara, Baluchistan or Andaman and Nicobar Islands, the Chief Commissioner; and for a State in India, the Political Officer or Agent, who should be addressed through the Durbar.

4. No allegation that an Application Form or letter respecting such Form has been lost or delayed in the post will be considered unless the person making such allegation produces a Post Office Certificate of posting. Candidates who delay their applications until a late date will do so at their own risk.

Note.—With reference to the note to rule 9 the Governor General in Council has, with the approval of the Secretary of State for India in Council, relaxed the condition imposed by that rule so as to admit to this examination the following four classes of Indian students who have undergone at their own expense a course of Forestry outside India and have thereby been prevented from entering for the examination in India for admission to the Indian Forest Service :—

(*a*) Those who were not debarred by age from appearing at the competitive examination in 1926, *i.e.*, were under 23 then, but were too old to appear at the examination in 1927 by reason of being over 23 on the 1st April 1927.

(*b*) Those who had obtained a degree or diploma in Forestry and were under 25 years of age on the 30th June 1926.

(*c*) Those who were qualified to take the examination in 1927, but did not do so perhaps on account of short notice, and are over age this year.

(*d*) Those who, having obtained a diploma or degree in Forestry, were under 25 on the 30th June 1927.

These concessions will not operate to allow any of the candidates in question who has appeared once at the examination to appear a second time and are confined to Indian students who were undergoing forestry training outside India in 1926 or 1927.

Special rules applicable to Burman candidates will be issued later. Burman candidates shall not compete at the competitive examination to be held under Rule I in the year 1928 :—

1. A competitive examination for admission to the Indian Audit and Accounts Service, the Military Accounts Department and the Imperial Customs Service shall be held in India at such time as the Governor-General in Council may direct.

2. The maximum number of candidates to be admitted to the examination may, at the discretion of the Governor-General in Council, be limited to such number, not being less than 200, as the Governor-General in Council may decide. If the number of candidates exceeds that limit, the Public Service Commission shall select from among the applicants those who shall be admitted to the examination, having regard to the suitability of the applicants for the Services in question.

3. (i) A candidate shall apply to be admitted to the examination before such date, and in such form, as the Governor-General in Council may prescribe.

(ii) If a candidate is employed at the date of his application in Government service he shall make application through the head of his department to the Local Government if he is employed by the Local Government, or to the Government of India if he is employed in a department under the control of the Government of India.

(iii) If he is not in such service, he shall apply to the authority of the area in which his parents reside at the time of the application or have previously resided for a period of not less than three years, or in which he has himself resided (otherwise than as a student at a University only) for the like period.

The authority of the area to whom application shall be made shall, if the application is based on residence in a Governor's province, be the Local Government of that province; if it is based on residence in Coorg, the North-West Frontier Province, Delhi or Ajmer-Merwara, be the Chief Commissioner concerned; and, if it is based on residence in a State in India, be the Political Officer or Agent through the Durbar.

(iv) No candidate shall make more than one application in any year.

4. A candidate must be a male who is either (i) a British subject of Indian domicile, who was, and whose father and mother were, born within His Majesty's dominions and allegiance, or (ii) a British subject of Indian domicile whose father was at the time of the candidate's birth and still is (or if dead, continued until his death to be) a British subject or a subject of a State in India, or (iii) a ruler or a subject of a State in India in respect of whom the Governor-General in Council has made a declaration under section 96A of the Government of India Act.

5. A candidate must have attained the age of 22 and must not have attained the age of 25 on the 1st day of August in the year in which the examination is held, provided that a candidate, over the age of 25 and under the age of 30 on that date, may be admitted to the examination (a) if he holds a substantive post under Government and (b) if he is recommended by the head of his department.

6. A candidate must be in good mental and bodily health and free from any physical defect likely to interfere with the efficient discharge of his duties, and a candidate who is found, after examination by a Medical Board, not to satisfy these requirements, will not be accepted for admission to the examination.

7. A candidate must satisfy the Governor-General in Council that his character is such as to qualify him for employment in the public service. No candidate who is in the employment of Government will be admitted to the examination unless the report from the head of his department as to his character and attainments is satisfactory.

*8. A candidate must hold a Degree of a University approved by the Governor-General in Council or the Senior Diploma of the Mayo College, Ajmere.

In exceptional cases the Public Service Commission may, on the recommendation of the Local Government, treat as a qualified candidate, a candidate who, though not possessing any of the foregoing qualifications, has passed examinations conducted by other institutions of a standard which, in the opinion of the Commission, justifies his admission to the examination.

REPORT OF THE SELECT COMMITTEE ON THE BENGAL VILLAGE SELF-GOVERNMENT (AMENDMENT) BILL, 1928.

We the undersigned members of the Select Committee, appointed by the Legislative Council on the 27th March, 1928, to consider the Bengal Village Self-Government (Amendment) Bill, 1928, have considered the provisions of the Bill, and the following papers relative thereto:-

(*7*) Letter No. 1521 J., dated the 22nd March, 1928, from the Commissioner of the Dacca Division, with enclosure, expressing an opinion on the provisions of the Bill.

Paper No. 2.

Letter No. 673 L. S.-G., dated the 26th March, 1928, from the Commissioner of the Burdwan Division, expressing an opinion on the provisions of the Bill.

We have the honour to submit this our report with the Bill, as amended by us, annexed.

The Bill was published in English in the *Calcutta Gazette* on the 26th January, 1928.

2. The Committee met on the 3rd April, 1928.

3. *Clause 2.*—The Committee was of opinion that clause 2 of the Bill should be revised so as to confer power upon union boards or a combination of union boards to make money contributions to institutions or undertakings not actually under their control, and also so as to extend their powers of combination to include the undertaking of all works of public utility which a union board may undertake under the Act. We have redrafted the clause to this end.

We have omitted the words " or part of a district " in sub-section (*1*) as being unnecessary, and we have inserted the words " from time to time " in sub-section (*3*) of the proposed new section, to ensure the power of revising an allocation of cost once made. We have rejected the proposal to make the wording mandatory, preferring by retaining the word " may " to leave to the union boards unfettered discretion in the exercise of the powers which the Bill is designed to confer on them.

Clause 3.—We have inserted the words " from time to time," in order to secure to union boards power to withdraw all or any of the powers delegated to the committees.

Clause 4.—We consider it advisable to safeguard the powers of control of the Commissioner and the District Magistrate, as well as those of the District Board.

Clause 5.—We have made provision herein for the determination of the number of members to be furnished by the several union boards to the committees and for the settlement of subsidiary matters, such as the supervision of the proceedings of the committees by the union boards, and the revision of the committee upon any change in the circumstances of the constituting union boards.

4. We do not consider that the Bill has been so altered as to require republication.

5. We recommend that the Bill as amended by us be passed.

PART VI.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 9th February, 1928 :—

LEGISLATIVE ASSEMBLY BILL NO. 10 OF 1928.

A Bill to repeal the Caste Disabilities Removal Act, 1850.

WHEREAS it is expedient to repeal the Caste Disabilities Removal Act, 1850; It is hereby enacted as follows :— XXI of 1850.

Short title, extent and commencement.

1. (*1*) This Act may be called the Caste Disabilities Removal Repealing Act, 192 .

(*2*) It extends to the whole of British India.

(*3*) It shall come into force at once.

Repeal of Act XXI of 1850.

2. The Caste Disabilities Removal Act, 1850, is hereby repealed. XXI of 1850.

STATEMENT OF OBJECTS AND REASONS.

The Caste Disabilities Romoval Act (XXI of 1850) has created an anomaly. As pointed out in 64 I. C. 514 in a case from Burma, the Burmese Buddhist relations of the deceased, who became a convert to Muhammadanism, do not inherit from him, though he would have inherited from them. There is thus no reciprocity and there is no particular merit in allowing an apostate to inherit from his previous relations, whose

religion and law he has abandoned, while under the law to which he has become subject they cannot inherit from him. The legislature in Act XXIX of 1923, the Special Marriage Amendment Act, has, by permitting the adoption by the father in the case of a son marrying under the Act, approved the principle of applying the rule of civil death to such person, who renounces the essentials of Hindu religion, though section 23 of this Act allows such persons to succeed as heirs.

This provision is not intended against any community and would be applicable to the cases of persons who become converts to Hinduism from Muhammadanism.

The Caste Disabilities Removal Act was purely a Government measure and does not represent the will of the people.

RESOLUTION ON THE REPORT ON THE WORKING OF THE CO-OPERATIVE SOCIETIES IN BENGAL FOR THE YEAR ENDING 30TH JUNE 1927.

GOVERNMENT OF BENGAL.

Department of Agriculture and Industries.

Co-operative Societies.

DARJEELING, THE 8TH MAY 1928.

RESOLUTION—No. 112/T.—A. 1.

Minister-in-charge: The Hon'ble Sir P. C. Mitter, Kt., C.I.E.

READ—

The Report on the Working of the Co-operative Societies in Bengal for the year ending 30th June 1927.

Administration.—Rai J. M. Mitra Bahadur held the office of Registrar throughout the year. There was no change in the strength of the superior controlling staff and only one permanent change in the personnel, this being due to the reversion of Rai Sahib Nripendra Chandra Bose, Assistant Registrar, to the general line as Deputy Collector. The opening of separate offices for the Assistant Registrars of the Burdwan and Chittagong Divisions has resulted in increased efficiency. Government have since the close of the

year under review approved of the strengthening both of the inspectorate and of the audit staff, the former by 12 additional posts and the latter by 24. Unfortunately, the limited funds available for new expenditure has made it impossible to include provision for more than 4 of the former and 12 of the latter in the budget for 1928-29. The full number approved of will be appointed as soon as funds permit.

A scheme for the re-organization of the service of auditors has been approved by Government. By this they are placed on a permanent basis on an incremental pay of Rs. 75—150 instead of the present fixed pay of Rs. 75, and will get the benefit of a provident fund. The new rates of pay take effect from 1st April 1927. This will allay the discontent referred to by the Registrar, and should result in more satisfactory working.

2. Generally, the number of societies shows a satisfactory increase. The total rose from 12,819 to 15,439, an increase of 20·4 per cent. as compared with an increase of 15·6 per cent. in the previous year. Membership rose from 453,031 to 547,325, an increase of 20·7 per cent. as compared with 17·4 per cent. in 1925-26. Working capital rose from Rs. 7,52,77,018 to Rs. 9,43,42,218, an increase of 25·3 per cent. as compared with 21·7 per cent. in the previous year.

Economic conditions as a whole were not unfavourable, though floods in West Bengal with concomitant loss of winter paddy and the low price of jute were disturbing factors. There was a general shortage of money, and the Provincial Bank for the first time found it difficult to cope with the demand for loans.

Gratifying as has been the steady advance of the co-operative movement in general the Hon'ble Minister would like to draw the attention of the public to the very large field of agricultural credit which yet remains to be covered. The annual value of the principal agricultural products of Bengal is in the neighbourhood of 200 crores of rupees as is shown in the statement below, yet we find it stated in paragraph 14 of the report that the annual cash employed in the movement is only 5·15 crores, a sum which covers the activities not only of agricultural but of all kinds of societies. He has no intention of attempting to force the pace in the realm of co-operative movement, a course which is bound to defeat its own end in that the strength of the movement depends wholly on a spontaneous appreciation of co-operative principles by the co-operators themselves, but some definite action does seem to be necessary for the provision of credit for the agriculturists of Bengal, and Sir Provash Mitter desires to draw pointed attention to this fact.

Statement.

Name of crop.	Outturn.		The mean harvest price per maund.	Value of the crop.
			Rs. A.	Rs.
Jute	9,281,500 bales (400 lbs.)		8 10	40,02,64,687
Rice	7,742,000	tons	7 3	1,46,32,38,000
Sugarcane (gur) ..	223,300	tons	9 8	5,72,76,450
Rape and mustard ..	112,700	tons	9 10	2,92,87,912
Sesamum (til)	25,300	tons		(Approximately correct price not available).
Linseed	19,000	tons	8 5	42,64,312
		Total ..	..	1,95,43,31,361

In the jute trade a fair beginning has been made by the Co-operative Department and, as is well known, traders and merchants interested in the trade also provide fairly adequate arrangements for financing it. In the rice trade, on the other hand, a crop whose annual value is about 146 crores of rupees even moderately adequate arrangements for its financing at a reasonable rate of interest do not exist, and such arrangements are equally deficient in respect of the other minor crops, whose value may be estimated at over 9 crores of rupees. This is a state of affairs for which surely there must be a remedy, and the Hon'ble Minister believes that the Co-operative Department should be able to find it, provided public opinion is awakened sufficiently to interest itself in their efforts.

3. The ordinary credit societies generally worked satisfactorily. Collections fell below the high standard attained in the preceding year, being 37·8 per cent. of the total amount due as against 45·5 per cent.—a result which is attributable to the unfavourable agricultural conditions referred to above. It should be observed, however, that the best collection in the quinquennium 1920-21 to 1924-25 did not exceed 41·8 per cent. The proportion of overdue loans increased correspondingly, *i.e.*, from 24·1 in 1925-26 to 25·5 in 1926-27. The figure of 1925-26 was, however, the smallest for a decade. The Rajshahi Division, though slightly better than in the previous year, still shows the highest percentages of overdue loans outstanding. The audit classification of societies shows practically no variation as compared with previous years. Seventy-five per cent of societies are marked " C " or " average," on either side of which the percentage falls away steeply to 8 per cent. " B " or " fair," and 1·5 per cent. " good " on the one side and 8·8 per cent. " bad " and 5·9 per cent. " hopeless " on the other.

4. The report on the working of the jute sale societies is of particular interest, and though it is too early yet to attempt to form a decided judgment as to their future, there is little doubt that substantial progress in this comparatively new line of activity has been achieved. The rivals with whom these societies have to compete are highly organized and possessed of large resources, and it is obvious that it will take time for the new comers to obtain a firm footing, while, as the Registrar indicates, it cannot be expected that great financial results will accrue at once. A cautious policy is the only wise one, and this is what the Registrar is evidently pursuing. Apart from these considerations, the only true test of success in such a venture as this is the amount of benefit that the grower of the jute obtains. As the Registrar observes, the most notable event of the year is the establishment in Calcutta of the Bengal Wholesale Society, a federation of the local societies which acts as their agent for sales in the Calcutta market, so that there will be no need to rely on extra-co-operative assistance at any stage between the cultivators' field and the jute mill. Of the other sale societies, exclusive of those connected with jute, the Gosava Paddy Sale Society had a successful year. The total number of these societies rose from 53 to 78, the new additions being nearly all concerned with jute.

5. The increased interest shown in the co-operative production of milk and milk products deserves special mention. There is an immense field for expansion in this direction, and, as the Registrar points out, improved facilities for marketing spells sooner or later improved cattle and improved cattle-keeping. Satisfied that there is money in well-bred and well-kept kine, the cattle-keeper realizes it is worth his while to obtain cows of good milking strains and to take pains over their welfare. During the year, the number of milk societies increased from 76 to 97. Eighty-two of these are in the Calcutta group and are associated into the Calcutta Milk Union, whose fine modern plant at No. 119, Bow Bazar was visited by the Royal Commission on Agriculture, and, more recently, by His Excellency. This Union earned a profit of Rs. 22,168 in the year under report. Its success has led to the initiation of similar organizations at Dacca and Darjeeling, and the work is expanding so rapidly that it has been decided to create, when funds permit, a special post of Superintendent to deal with milk work alone. The Hon'ble Minister believes a great future lies before this form of enterprise, of benefit as it is to producer no less than to consumer. It offers

too a profitable occupation for anyone who is prepared to fit himself for it. The great difficulty lies in the lack of means of obtaining instruction in the art of dairying. There is now under consideration a scheme for affording such training on modern lines at Dacca where an excellent herd of carefully selected cattle will give full scope for practical instruction, and the Hon'ble Minister is confident that when funds permit of such classes being opened they will prove instantly popular.

6. The number of co-operative agricultural associations increased from 21 to 30. But the Registrar is evidently not very satisfied with the policy that has hitherto been followed in this connection, and the Hon'ble Minister will await with interest his proposals for improvement. The account of the year's working certainly does not convey an impression of any very great activity. It is gratifying to observe that there is close co-operation with the Agriculture Department in respect of these societies.

7. Among non-agricultural societies, ordinary credit societies show an increase in membership, and have on the whole thrived well, their main function being to afford people of limited means easy credit facilities. The Calcutta societies were as before the best administered, and in the mufassal the successful working of the Chittagong Urban Bank reflects credit on its management.

The artizans' societies show little signs of expansion, and it seems probable that this is a field to the development of which the Co-operative and the Industries Departments might devote themselves conjointly with success. The Hon'ble Minister is convinced that the most feasible line of advance in respect of cottage industries is on co-operative lines. The existence of these artizan societies, few in number though they are, forms a nucleus on which to work and Hon'ble Minister hopes that efforts will be made to effect progress in this direction. The Brahmanbaria Braziers Society, for instance, now comprises nearly all the artizans in the locality. There must be other places where similar societies could be organized and their methods improved under the guidance of the Industries Department.

There was a large increase in the numbers of anti-malarial societies, *viz.*, from 269 to 450, and their working seems on the whole to have been satisfactory.

It is gratifying to observe that the women's organizations worked, with one exception, satisfactorily, and that one new society was started during the year.

8. There is little to comment on in the working of the higher industrial organizations, except to note the registration of a silk union in Malda, with 45 societies affiliated to it. The main object of this is to provide marketing facilities for the silk produced, and its career will be watched with interest.

The central banks rose from 98 to 103 in number, and are reported to have made good progress on the whole. It is satisfactory to learn that complaints as regards their attitude towards village societies are increasingly rare.

The Bengal Provincial Co-operative Bank enjoyed continued prosperity. The turnover was the same as in the preceding year, *viz.*, Rs. 5 crores. A testimonial to its stability is afforded by the increase of deposits by non-members of from Rs. 44 to 88 lakhs. Its Board of Management has received an accession of strength in Sir R. N. Mukerjee's acceptance of its chairmanship, a much appreciated proof both of his interest in the movement and of his belief in its stability.

The Bengal Co-operative Organization Society, which receives an annual Government grant of Rs. 10,000, continued to flourish, its membership increased to 9,875, and the circulation of the journals which it publishes also went up. The divisional conferences, that at Dacca coinciding with the visit of the Royal Commission on Agriculture, which were held under its auspices, were of value in allowing of the exchange of experiences and ideas

among co-operative workers and as a means of giving publicity to the movement, while the society also lent its assistance at the Dacca Agricultural Exhibition and on the Eastern Bengal Railway demonstration train. This society arranged for a training class for co-operative officers after the close of the year at the Dacca Farm. This was a great success, and Government will await with interest the Registrar, Co-operative Societies' proposals for the extension of this system of instruction.

9. The number of societies liquidated shows no very marked fluctuation, but there are a considerable number (409) of cases pending. The completion of liquidation proceedings is a troublesome process, and though there has been better progress in this respect during the last 3 years than previously, there is still room for improvement. It is to be hoped that the strengthening of the staff will contribute towards prompter disposal of these cases.

10. The Hon'ble Minister is glad to note the cordial way in which the Registrar refers to his relations with the Agriculture and the Industries Departments, both of which impinge upon the field of co-operation at numerous points. There are few individuals who have either the means or the enterprise to embark upon improved plant and methods in cottage industries or in dairying and animal husbandry (to take only two examples), but there is ample scope and opportunity for great progress in either sphere under co-operative conditions of management.

11. Sir P. C. Mitter is satisfied that the bulk of public opinion entertains nothing but feelings of good-will towards the co-operative movement. Criticism, whether interested (and therefore often unfair) or genuine, there will always be, and it should be welcomed on its merits. The main object to be kept steadily in view is the fostering of the movement on genuine, sound lines, and above all the fostering of the co-operative spirit. With a real co-operative spirit abroad, there will be no room for those petty but destructive jealousies and the internecine strife between society and society or within a single society to which the Registrar has had to refer here and there in his report.

12. The Government of Bengal in the Ministry of Agriculture have once more to acknowledge with pleasure the services rendered by so many, whether non-official or official, in helping the growth of the co-operative movement, and in this tribute they would include the humble individual who contributes his mite in the shape of honest work in a quiet way in some rural spot no less than those who are fortunate enough to work in more conspicuous positions. The thanks of Government are due to Rai J. M. Mitra Bahadur for the way in which he discharged his duties.

By order of the Government of Bengal,
(Ministry of Agriculture),

R. N. REID,
Secretary to the Government of Bengal.

No. 103.—The 21st May 1928.—Babu Priyanath C[illegible]krabarty, Assistant Engineer, is granted leave on half average pay, under rule 81(*d*) of the Fundamental Rules, for the period from the 15th to the 22nd February 1928, in extension of the leave granted to him in Bengal Government, Public Works Department, notification No. 82, dated the 23rd January 1928.

G. G. DEY,
Secretary to the Government of Bengal.

Minister-in-charge: The Hon'ble Sir P. C. Mitter, Kt., C.I.E.

No. 15R.—The 26th May 1928.—In exercise of the power conferred by section 42 of the Bengal Aerial Ropeways Act, 1923 (Bengal Act VII of 1923), the Government of Bengal (Ministry of Public Works) are pleased to make the following rules:—

Survey, construction, maintenance and working.

1. Whenever an aerial ropeway passes over a mining area the promoter shall acquire the subsoil right for the proper support of his trestles and stations.

2. For the purpose of section 15 (*1*) the promoter shall not enter into any building or compound of any enclosed garden attached to a dwelling house without the consent of the occupier thereof and without previously giving such occupier at least seven days' notice in writing of his intention to do so. The promoter shall tender payment for any damage done, and in the case of dispute as to the sufficiency of the amount so tendered he shall at once refer the dispute to the decision of the Collector.

3. Any damage done to private property by the promoter at the time of making surveys or doing all other acts necessary for constructing, maintaining, altering, repairing and using an aerial ropeway as contemplated in section 14 (*1*) (*a*) and (*f*) shall similarly [illegible] compensated by the promoter at the time of doing such damage.

4. The minimum clearance of a ropeway from the ground except within station limits shall be 12 feet, and such clearances over navigable rivers, canals and railways will be determined in each case by a reference to the authorities in charge of them.

5. Clearances over main roads having a width of not less than 10 feet shall not be less than 16 feet.

6. No ropeway shall be constructed unless every part excepting the anchorages of foundations has a factor of safety of at least 4 under the maximum conditions. For foundation anchorages it shall be sufficient if the moment of resistance of the foundation exceeds the overturning moments by 50 per cent. The factor of safety of 4 shall be obtained in the case of the rope by dividing the actual breaking load of the rope by the maximum direct tension to which it will be subjected.

7. Station gears, trestle sheaves and wire ropes shall be so designed and placed that lubrication can be performed safely whilst the ropeway is in motion.

8. All carriers shall be provided with appliances which will prevent them from discharging their contents, except at points where it is intended to discharge them.

9. For the pu[illegible] of giving signals on the ropeway, the promoter shall instal telepho[illegible] other signals which will enable the ropeway to be stopped from a[illegible]tion.

10. When an [illegible] ropeway or any part thereof has been closed to any traffic it shall not [illegible] re-opened to such traffic until it has been [illegible]ected, and the inspection shall be made according to the procedure [illegible] in section 10.

[illegible] Returns required under section 36 shall be submitted to the [illegible] Government [illegible] year.

12. Notices under this Act shall be served by registered post.

Duties of Inspector.

13. The Inspector will be the technical adviser to the Government of Bengal, and his duty shall be to inspect the ropeways at least once a year and to advise Government regarding works of public safety and convenience and the general working of the ropeways and such other matters as may be referred to him.

Accidents.

14. The following shall be deemed to be an accident within the meaning of section 20 (*c*) :—

(*i*) derailment of a carrier beyond the station limits, which include the distance between the station and the first trestle on either side of a station,

(*ii*) displacement of carrier ropes from the trestle sheaves or saddle,

(*iii*) damage to trestles,

(*iv*) a carrier [illegible]riking a trest[illegible] other permanent object, and

(*v*) acciden[illegible]ipping of buck[illegible]ong the line.

Notice of such accidents shall be sent to the Local Government and to the Inspector.

15. Accidents of the nature described in section 20 (*a*) shall be jointly enquired into by a Committee consisting of the promoter's servants, a police officer, a Magistrate and the Inspector, and a report shall be submitted to Government by such Committee. When an accident of the nature as described in section 20 (*a*) has occurred it shall be the duty of the promoter's servants to afford medical aid to the sufferers and to see that they are properly and carefully attended to till they are removed to their homes or handed over to the care of their relatives or friends. The nearest local medical officer should be communicated with. When an enquiry is being made the promoter shall produce before the Committee all his servants whose evidence is likely to be [illegible]equired. Whenever the report of the Committee or of the Inspector poi[illegible] to the necessity for or suggests a change in any of the rules or in [illegible]e system of working, the promoter shall, when acknowledging the re[illegible]rt, intimate the action which has be[illegible] taken or which it is proposed to take to prevent the recurrence of [illegible]ilar accidents.

Duties of Magistrates.

16. Whenever an accident of the nature described in section 20 (*a*) or 20 (*b*) has occurred in [illegible]rse of working of an aerial ropeway the District Magistrate, or [illegible]er Magistrate who may be appointed in this behalf by the Local [illegible]ment, may direct an investigation into the causes which led to the accident to be made by a subordinate Magistrate or by the police. When it is decided to make an enquiry the Magistrate or police officer so deputed shall proceed to the scene of the accident and conduct the enquiry there, and shall at once advise the promoter and the Inspector of the date and ho[illegible] at which the enquiry will commence. The Magistrate or police officer may summon any of the promoter's servants and any other person whose presence he may think necessary, and after taking the evidence and completing the enquiry, shall forward a copy of the report to the promoter and to the Local Government.

Duties of police officers.

17. A po[illegible]ce officer may make an investigation into the causes which led to any accident occurring in the course of the working of an aerial ropeway as contemplated in section 20 (*a*) or 20 (*b*), provided no such investigation is made when an enquiry has been commenced or ordered by the Magistrate.

FOREIGN AND POLITICAL DEPARTMENT.

NOTIFICATION.

Simla, the 22nd May 1928.

No. 310-H.—The following regulations, respecting Foreign Orders and Medals, which have been recently revised by Command of His Majesty the King-Emperor of India, are published for general information. These Regulations supersede those published in the Notification by the Government of India in the Foreign and Political Department, No. 431-H., dated the 13th September 1926.

A

Regulations respecting Foreign Orders and Medals applicable to persons in the Service of the Crown.

Orders.

1. NO person in the service of the Crown shall accept or wear the Insignia of any Foreign Order without having previously obtained His Majesty's permission to do so, signified either :

(*a*) By Warrant under the Royal Sign-Manual, or
(*b*) By restricted permission conveyed through the Keeper of His Majesty's Privy Purse.

2. When permission is given by Warrant under the Royal Sign-Manual, the Insignia of the Foreign Order may be worn at all times and without any restriction.

When restricted permission is given the Insignia may only be worn on the occasions specified in the terms of the letter from the Keeper of His Majesty's Privy Purse conveying the Royal sanction.

3. Full and unrestricted permission by Warrant under the Royal Sign-Manual is contemplated in the following cases :—

For a Decoration conferred—

On an Officer in His Majesty's Naval, Military or Air Forces lent to a Foreign Government; on an Officer in His Majesty's Naval, Military or Air Forces attached by His Majesty's Government to a Foreign Navy, Army or Air Force during hostilities ; or on any British Official lent to a Foreign Government and not in receipt of any emoluments from British public funds during the period of such loan.

4. Restricted permission is particularly contemplated for Decorations which have been conferred in recognition of personal attention to a foreign Sovereign, the Head of a Foreign State, or a member of a foreign Royal Family, and which are therefore of a more or less complimentary character, but will also be granted for Decorations conferred on other exceptional occasions when in the public interest it is deemed expedient that they should be accepted.

5. Restricted permission will generally be given for Decorations conferred in the following cases, but, as indicated in the preceding paragraph, will not necessarily be limited to these cases :—

(1) On British Ambassadors or Ministers abroad when the King pays a State visit to the country to which they are accredited ;

(*Note.*—A State visit is defined as one on which the King is accompanied by a Minister or High Official in attendance.)

(2) On Members of Deputations of British Regiments to Foreign Heads of States ;

(3) On Members of Special Missions when the King is represented at a Foreign Coronation, Wedding, Funeral, or similar occasion ; or on any Diplomatic Representative when specially accredited to represent His Majesty on such occasions (but not on the members of his Staff).

Restricted permission will *not* be given to—

(*a*) British Ambassadors or Ministers abroad when leaving, except on final retirement from His Majesty's Diplomatic Service and in respect of a decoration offered by the Head of State to whom they were last accredited ;
(*b*) British Officers attending Foreign Manœuvres ;
(*c*) Naval Officers of British Squadrons visiting Foreign Waters.

6. Both in the case of full and of restricted permission the matter will be submitted to the King by His Majesty's Principal Secretary of State for Foreign Affairs, who shall be

under no obligation to consider applications for permission unless the desire of the Head of a Foreign State to confer upon a British subject the Insignia of an order is notified to him before the Order is conferred, either through the British Diplomatic Representative accredited to the Head of the Foreign State, or through the Diplomatic Representative of the latter at the Court of St. James.

7. When His Majesty's Principal Secretary of State for Foreign Affairs shall have taken the King's pleasure on any such application, and shall have obtained His Majesty's permission for the person in whose favour it has been made to wear the Insignia of a Foreign Order, he shall signify the same to His Majesty's Principal Secretary of State for the Home Department, in order that he may cause a warrant, if it be a case for the issue of a Warrant as defined in Rule 2, to be prepared for the Royal Sign-Manual.

When such Warrant shall have been signed by the King, a notification thereof shall be inserted in the "Gazette."

Persons in whose favour such Warrants are issued will be required to pay to His Majesty's Principal Secretary of State for the Home Department a stamp duty of 10*s*.

8. The Warrant signifying His Majesty's permission may, at the request and at the expense of the person who has obtained it, be registered in the College of Arms. Every such Warrant as aforesaid shall contain a clause providing that His Majesty's licence and permission does not authorise the assumption of any style, appellation, rank, precedence, or privilege appertaining to a Knight Bachelor of His Majesty's Realms.

Medals.

9. Medals, with the exceptions specified below, and State decorations not carrying membership of an Order of Chivalry, are subject to the Regulations in the same manner as Orders, but permission is given by Letter and not by Royal Warrant.

10. Medals for saving or attempting to save life at sea or on land, whether conferred on behalf of the Head or Government of a Foreign State or by private Life Saving Societies or Institutions, may be accepted and worn without His Majesty's special permission ;

Subject, however, in the case of members of His Majesty's Naval, Military or Air Forces, to any restrictions imposed by the King's Regulations for those Services as to the wearing of such medals with uniform.

Applications for His Majesty's permission to wear other Medals conferred by Private Societies or Institutions and Commemorative Medals cannot be entertained.

11. The King's unrestricted permission to accept and wear a Foreign War Medal will only be given to (1) Members of His Majesty's Naval, Military or Air Forces if serving with a Foreign Army, Navy or Air Force with His Majesty's licence, and (2) Military, Naval or Air Attachés or Officers and other ranks and ratings officially attached to Foreign Armies, Navies or Air Forces during hostilities.

12 In exceptional cases, when for special reasons it is deemed expedient that the acceptance of the medal should not be declined, His Majesty will grant restricted permission. Such cases will be judged on their merits, and the circumstances in which the Medal may be worn will be specified in the Letter conveying His Majesty's permission.

General.

13. Ladies are subject to the Regulations in all respects in the same manner as men.

B

Regulations respecting Foreign Orders and Medals applicable to Persons NOT in the Service of the Crown.

Orders.

1. NO subject of His Majesty shall accept or wear the Insignia of any Foreign Order without having previously obtained His Majesty's permission to do so, signified either :

(*a*) By Warrant under the Royal Sign-Manual, or
(*b*) By restricted permission conveyed through the Keeper of His Majesty's Privy Purse.

2. When permission is given by Warrant under the Royal Sign-Manual, the Insignia of the Foreign Order may be worn at all times and without any restriction.

When restricted permission is given the Insignia may only be worn on the occasions specified in the terms of the letter from the Keeper of His Majesty's Privy Purse conveying the Royal sanction.

3. The full and unrestricted permission by Warrant under the Royal Sign-Manual is designed to meet cases in which the Decoration has been earned by valuable service rendered to the Head of the State conferring it, or to the State itself. Such service must have been both of manifest and substantial value to the Head of the State or State concerned and not inconsistent with British interest; and must have been rendered within the period of five years immediately preceding the notification of the Decoration to His Majesty's Government as prescribed under Rule 5.

4. Restricted permission is particularly contemplated for Decorations which have been conferred in recognition of personal attention to a foreign Sovereign, the Head of a Foreign State, or a member of a foreign Royal Family, and which are therefore of a more or less complimentary character, but will also be granted for Decorations conferred on other exceptional occasions, in the case of services of manifest and substantial value when not rendered direct to the Foreign State, or when in the public interest it is deemed expedient that they should be accepted.

Restricted permission will not be granted in the case of Decorations conferred for services rendered more than five years previously.

5. Both in the case of full and of restricted permission the matter will be submitted to the King by His Majesty's Principal Secretary of State for Foreign Affairs, who shall be under no obligation to consider applications for permission unless the desire of the Head of a Foreign State to confer upon a British subject the Insignia of an Order is notified to him before the Order is conferred, either through the British Diplomatic Representative accredited to the Head of the Foreign State, or through the Diplomatic Representative of the latter at the Court of St. James.

6. When His Majesty's Principal Secretary of State for Foreign Affairs shall have taken the King's pleasure on any such application, and shall have obtained His Majesty's permission for the person in whose favour it has been made to wear the Insignia of a Foreign Order, he shall signify the same to His Majesty's Principal Secretary of State for the Home Department, in order that he may cause a Warrant, if it be a case for the issue of a Warrant as defined in Rule 2, to be prepared for the Royal Sign-Manual.

When such Warrant shall have been signed by the King, a notification thereof shall be inserted in the "Gazette."

Persons in whose favour such Warrants are issued will be required to pay to His Majesty's Principal Secretary of State for the Home Department a stamp duty of 10*s*.

7. The Warrant signifying His Majesty's permission may, at the request and at the expense of the person who has obtained it, be registered in the College of Arms. Every such Warrant as aforesaid shall contain a clause providing that His Majesty's licence and permission does not authorise the assumption of any style, appellation, rank, precedence, or privilege appertaining to a Knight Bachelor of His Majesty's Realms.

Medals.

8. Medals, with the exceptions specified below, and State decorations not carrying membership of an Order of Chivalry, are subject to the Regulations in the same manner as Orders, but permission to wear is given by Letter and not by Royal Warrant. No permission is needed to accept a Foreign Medal if it is not to be worn.

9. Medals for saving or attempting to save life at sea or on land, whether conferred on behalf of the Head or Government of a Foreign State or by private Life Saving Societies or Institutions, may be accepted and worn without His Majesty's special permission.

Application for His Majesty's permission to wear other Medals conferred by Private Societies or Institutions, and Commemorative Medals, cannot be entertained.

10. His Majesty will not grant permission to wear any Foreign War Medal if the person on whom it is to be or has been conferred was during the war acting in contravention of the Foreign Enlistment Act.

THE DACCA UNIVERSITY (AMENDMENT) BILL, 1928.

A

BILL

further to amend the Dacca University Act, 1920.

WHEREAS it is expedient further to amend the Dacca University Act, 1920, in the manner hereinafter appearing; (XVIII of 1920.)

It is hereby enacted as follows:—

Short title.

1. This Act may be called the Dacca University (Amendment) Act, 1928.

Amendment of section 2 of Act XVIII of 1920.

2. In clause (*g*) of section 2 of the Dacca University Act, 1920 (hereinafter referred to as the said Act), for the words "and Lecturers" the words "Lecturers and Assistant Lecturers" shall be substituted.

(*1*) in sub-clause (*a*) of clause (*2*) for the word "in" the words "provided by" shall be substituted; and

(*2*) in clause (*4*) for the word "members" the word "students" shall be substituted.

Amendment of section 6.

4. (*1*) In sub-section (*1*) of section 6 of the said Act,—

(*a*) for the words "laboratory work" the words "work in the laboratories or workshops" shall be substituted;

(*b*) the words "in the University" shall be omitted; and

(*c*) for the words "in accordance with any syllabus prescribed by the Regulations" the words "in the manner provided by the Ordinances" shall be substituted.

Amendment of section 32.

7. For clause (*b*) of section 32 of the said Act, the following clause shall be substituted, namely:—

"(*b*) the Salimullah Muslim Hall."

STATEMENT OF OBJECTS AND REASONS.

After six years' experience of the working of the Dacca University Act, the authorities of the University have suggested that it should be amended on certain points. On a consideration of the suggestions put forward, the present amending Bill has been prepared. The most important amendment is in clause 5, which makes it clear that the final word about fees to be paid to examiners and the emoluments of teachers shall rest not with the Academic Council but with the Executive Council. This was certainly the opinion of the Calcutta University Commission, and is eminently reasonable when it is remembered that responsibility for finance rests with the latter body. The amendments in clauses 3, 4 and 6 will enable the University to recognise teaching given by teachers in the Dacca Training College, the Engineering School or other similar schools. Clause 7 is framed to associate the name of the late Nawab of Dacca with the University.

RESOLUTION ON THE SURVEY AND SETTLEMENT REPORTS FOR THE YEAR ENDING THE 30TH SEPTEMBER 1927.

CALCUTTA, THE 24TH MAY 1928.

RESOLUTION—No. 10072 L. R.

READ—

The Survey and Settlement Reports for the year ending the 30th September, 1927.

As usual, the Director, Eastern Circle, Survey of India, inspected the traverse work carried on in this Presidency, and both he and the Officer-in-charge of the Photo-Litho office inspected the Bengal Drawing Office and made some valuable suggestions for improvement in the drawing and typing of the maps and their reproduction. The Director, Eastern Circle, also gave valuable assistance and advice in connection with the survey of a forest area in Chittagong from the air. The Governor in Council has noticed with pleasure that these officers of the Survey of India were satisfied with the work done by the Survey Department of the Local Government.

2. Traverse survey was done in an area of 684 sq. miles in the 24-Parganas and 738 sq. miles in Burdwan. The area under survey in the 24-Parganas was in the neighbourhood of Calcutta. In one portion it was very congested, and in another portion it included the salt lake and several other large *bils*. There were eighteen municipalities within this block covering about 77 sq. miles, some of which were thickly populated or were full of gardens, and consequently required a large amount of detailed traversing. The area surveyed in Burdwan was, on the other hand, open, and offered no special difficulties.

3. The most interesting item of survey work during the year was the survey carried out from the air of a forest area in Chittagong by the Air Survey Company. This was a new venture, but its result was tested by the Survey of India and was found to be quite satisfactory.

4. The major settlement operations in Nadia were brought to a close and those in Khulna and Pabna-Bogra were practically finished during the year under report. The operations in Murshidabad-Birbhum and in the 24-Parganas were in full swing with all stages of work in progress. The former settlement has got through an unusually heavy programme with efficiency and despatch, while the latter, in spite of the exceptionally large number of plots per square mile, made satisfactory progress in almost all branches of work.

5. The total area of which a record-of-rights has been prepared is now 48,366 sq. miles out of 66,498 sq. miles in the Presidency to which the Bengal Tenancy Act applies. The settlement maps and records continued to prove of assistance to the various departments of administration which used them, and their popularity with the public was evidenced by the increased number of sales of *khatians* and village-maps during the year.

6. Mr. A. K. Jameson, I.C.S., was in charge of the Departments throughout the year, except for a short period from 1st to 29th October, when Khan Bahadur M. A. Momen officiated in his place. The Governor in Council has much pleasure in acknowledging the efficiency and care with which both officers have managed the two Departments under their control and the comprehensive and interesting report submitted by Mr. Jameson. His Excellency in Council is also pleased to direct that the good work done by the Survey Officers, Messrs. C. A. O'Donel, I. Newton and H. H. Creed, and Settlement Officers, Messrs. J. B. Kindersley, B. E. J. Burge, K. A. L. Hill and Rai B. B. Mukharji Bahadur, as also by the other officers mentioned in the concluding paragraphs of the Survey and Settlement Reports be noted.

Order—Ordered that this Resolution be published in the Gazette.

By order of the Governor in Council,

Secretary to the Government of Bengal (offg.).

GOVERNMENT OF BENGAL.

APPOINTMENT DEPARTMENT.

Appointment.

CALCUTTA, THE 1ST JUNE 1928.

RESOLUTION—No. 5339A.

READ—

Resolution of this Government in the General Department No. 398 T.-G., dated the 17th October 1891.

Resolution of this Government in the Appointment Department, No. 176 A., dated the 10th January 1916.

Letter No. 4849 R., dated the 19th December 1927, from the Commissioner of the Dacca Division.

The Governor in Council understands that some doubt prevails as to the number of days which District and Subdivisional Officers are expected to spend on tour in their respective charges, in view of the fact that the orders issued in Appointment Department Resolution No. 176A., dated the 10th January 1916, were declared to be in supersession of all previous orders and did not actually prescribe the minimum number of days a District Officer or Subdivisional Officer was required to be on tour during a year.

2. Recent changes in the administration have undoubtedly altered the nature of the work to be done on tour by District and Subdivisional Officers, as except in a very few cases they are no longer responsible for the work of district and local boards. But in the opinion of the Governor in Council it is essential that these officers shall acquire by regular touring an intimate personal knowledge of the requirements of the areas of which they are in executive charge and afford the inhabitants an opportunity of making their needs known to the local representative of the executive Government. Further, in the interests of the gradual development of self-governing institutions, it is essential that District and Subdivisional Officers shall take an interest in the work of union boards and other units of self-government whether in villages or in towns, and shall assist with advice and encouragement educational, co-operative and other institutions of a similar nature.

3. For these duties and for the various official inspections which every executive officer is bound by rule to make, the Governor in Council considers it essential that District and Subdivisional Officers shall spend a considerable time away from their headquarters each year. Therefore, while making no change in the general principles laid down in Resolution No 176 A., dated the 10th January 1916, for the guidance of touring officers, he considers it desirable to lay it down explicitly that District and Subdivisional Officers are expected to spend at least 90 days in the year on tour in their respective areas of administration.

ORDER—Ordered that this resolution be published in the *Calcutta Gazette* for general information.

Ordered also that a copy be forwarded to the officers concerned for information and guidance: also that a copy be forwarded to the Board of Revenue and to the other Departments of this Government for information.

By order of the Governor in Council,

W. D. R. PRENTICE,

Chief Secretary to the Government of Bengal.

2. **Method of direct recruitment.**—Direct recruitment for these services will be made on the results of a competitive examination, but Government reserve the right to appoint by nomination from the list of qualified examinees individual candidates belonging to the backward classes as enumerated on page 189, Part I of the Report of the Calcutta University Commission and to the Anglo-Indian, Indian Christian and Buddhist communities and other minorities if the results of the examination fail to secure the representation of such classes or communities, and in the case of the Upper Division of the Secretariat Clerical Service to fill European and Anglo-Indian vacancies by selection from outside the list. The head of an office in the Bengal Secretariat also retains the power to appoint men of special ability or aptitude to any post in the office when, on account of the special requirements of the post or other exceptional circumstances, the post cannot be filled in the ordinary way.

3. **Choice of Service.**—Each candidate for direct recruitment will be required to specify in his application the service or services for which he desires to compete, placing them in the order of his preference, and the choice thus indicated will be final. In making these nominations, due regard should be paid to the desirability of different classes and communities being represented in the public service.

11. **Selection certificates.**—In order to make the appraisement of individual merits of candidates possible, the Selection Committee shall issue certificates of selection to such of the nominated candidates, not exceeding 200 in all, as it considers qualified to appear at the examination. 14. **Eligibility of Government servants.**—Unless especially excepted by Government by general or special order, candidates holding substantive appointments in Government service will be debarred from appearing at the examination. Whenever such exception is made, the candidate will be subject to selection by the Selection Committee as if he were duly nominated under rule 10 of these rules.

15. **Canvassing.**—Any attempt on the part of a candidate to enlist support for his application through persons of influence will disqualify him for appointment. Spontaneous recommendations from persons interested in the candidates, or otherwise known to them, will be disregarded.

16. **Examination fee and time-table.**—Every candidate to whom a certificate of selection has been issued will, within a week from the date of its receipt, deposit in the nearest treasury a sum of Rs. 50 as examination fee and forward the receipt for the same to the Secretary to the Selection Committee. No part of the fee will be returnable to a candidate. Delay in this respect may render a candidate's name liable to removal from the list of examinees. On complying with this requirement the candidates will receive from the Secretary a time-table for the examination.

17. **Syllabus of examination and marks.**—The examination will be held in the subjects and according to the syllabus shown in Schedule III which also indicates the numerical value to be attached to each paper at the examination.

(*i*) Bengali,	(*iii*) Urdu,
(*ii*) Hindi,	(*iv*) Nepali,

and *vice versa* in the compulsory paper. Successful candidates, however, who have offered any language other than Bengali in that paper and are appointed to a service for which there is a Departmental Examination will be required to pass completely the Departmental Examinations in Bengali within two years of the date of their appointment to the service.

18. **Medical examination.**—As soon as the result of the examination has been declared, successful candidates will be required to appear before a Medical Board for a certificate of their fitness for Government service in the form shown in Schedule IV. Regulations as to the physical examination are given in the schedule and intending candidates are advised before they apply under rule 6 for admission to the examination, to satisfy themselves that they are likely to qualify as physically fit under these regulations. For recent experience has shown that about one-third of the candidates who qualify at the competitive examination are subsequently rejected by the Medical Board as unfit.

SCHEDULE IV.

Candidates selected for appointment after the examination will, before appointment, be called upon to satisfy a Medical Board as to their fitness for appointment to Government service, and will be required to conform to the physical standards laid down in the regulations subjoined.

These regulations are published for the convenience of candidates and in order to enable them to ascertain the probability of their coming up to the required physical standard. But it must be clearly understood that Government reserve to themselves an absolute discretion to reject as unfit any candidate whom they may consider, after hearing the opinion of their medical advisers, to be physically disqualified for the public service; and that their discretion is in no respect limited by these regulations.

Regulations as to the physical examination of candidates for appointment to the Bengal Civil Service (Executive), the Bengal Excise Service, the Bengal Police Service, the Bengal Junior Civil Service, the Bengal Junior Excise Service and the Upper Division of the Secretariat Clerical Service.

General physical requirements.

I. A candidate must be in good mental and bodily health, and free from any physical defect likely to interfere with the efficient performance of his duty.

II. In the examination of candidates the Medical Board will apply the following table of correlation of age, height and chest girth :—

Age.	Height without shoes.	Chest measurement on full expiration.	Chest measurement on full inspiration.
	Inches. Inches.		
21 and upwards	62½ and under 65	30	32
	65 ,, 68	31	33
	68 ,, 70	32	34
	70 ,, 72	33	35½
	72 and upwards	34	36½

III. Measurement of chest.—The candidate will be made to stand erect with his feet together and to raise his hands above his head. The tape will be carefully adjusted round the chest, with its posterior upper edge touching the inferior angles of the shoulder blades, and its anterior lower edge the upper part of the nipples. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to empty his chest of air as much as is possible. This is best done by continuous whistling with the lips as long as sound can be produced. The tape will be carefully gathered in during the process, and when the minimum measurement is reached it will be recorded. The candidate will then be directed to inflate his chest to its utmost capacity. The maximum measurement will likewise be noted. The girth with the chest fully expanded and the range of expansion between the minimum and maximum will then be recorded. In all doubtful cases the functional capacity of the lungs may be tested by means of the spirometer. The minimum vital capacity as tested by the spirometer shall in no case be below 180 cubic inches.

IV. The hearing must be good.

V. The speech must be without impediment.

VI. The teeth must be in good order, *i.e.*, decayed or broken teeth must be properly stopped or crowned, and deficient teeth replaced by artificial teeth, where necessary, for effective mastication.

VII. The chest must be well formed, the lungs and heart sound.

VIII. Rupture, hydrocele, varicocele, varicose veins in a severe degree, or other conditions likely to cause inefficiency will disqualify a candidate, unless such condition is cured by operation. Where any candidate has been rejected and has subsequently undergone one or other operation for hernia, hydrocele, varicocele or varicose veins, the Board may pass him provided they are satisfied that the condition has been radically cured.

IX. The limbs, feet and toes must be well formed and developed, with free and perfect motion of all the joints.

X. A candidate must have no congenital malformation or defect likely to interfere with his efficiency.

XI. A candidate must not be subject to chronic skin disease.

XII. Evidence of previous acute or chronic disease pointing to an impaired constitution will disqualify.

Standard of minimum acuteness of vision required for appointment in the Provincial Services.

Better eye.	Worse eye.
Vision = $\frac{6}{6}$—	Vision = $\frac{6}{9}$

after correction with glasses, provided there are no morbid changes present in the choroid or retinæ.

A candidate of twenty-five years of age or over may be admitted, provided ametropia in either eye or both eyes does not exceed – 3·5 D, and provided his corrected vision reaches 6/6 in each eye.

3. Candidates with hypermetropia may be admitted provided the acuteness of vision is—

Better eye.	Worse eye
Vision = $\frac{6}{6}$	Vision = $\frac{6}{9}$

after correction with glasses.

4. In cases of defective vision due to nebula of the cornea, the candidate will be rejected.

5. Squints or any morbid conditions subject to risk of aggravation or recurrence in either eye may cause rejection of a candidate.

6. Colour vision need not be taken into account.

Form of medical certificate for candidates for appointment to the Bengal Civil Service (Executive), the Bengal Excise Service, the Bengal Junior Civil Service, the Bengal Junior Excise Service and the Upper Division of the Secretariat Clerical Service.

The attention of the Medical Board is specially directed to the following:—

No person will be deemed qualified for admission to the service who shall not satisfy Government that he has no disease, constitutional affection or bodily infirmity, unfitting him, or likely to unfit him, for the service. It should be understood that the question of fitness involves the future as well as the present and that one of the main objects of medical examination is to secure continuous effective service, and in the case of candidates for permanent appointment to prevent early pension. It is at the same time to be noted that the question is one of the likelihood of continuous effective service, and that the rejection of a candidate need not be advised on account of the presence of a defect which in only a small proportion of cases is found to interfere with continuous effective service. Before filling up the form it should be ascertained from the candidate whether he has been previously pronounced unfit for Government service by any duly constituted medical authority in India or elsewhere.

If it is not possible for the Government servant to give full details, as above, in his original application, or if, after leaving India, he wishes to make any changes in the programme which has been approved in India, he should submit particulars as soon as possible to the Secretary to the High Commissioner for India, General Department. In such cases, he should not, unless prepared to do so at his own risk, commence the course of study, nor incur any expenses in connection therewith, until he receives approval to the course through the High Commissioner".

6. "Government servants on leave in Europe or America, who wish to convert part of the leave into study leave or to undertake a course of study during leave, should, before commencing study and before incurring any expenses in connection therewith, submit a programme of their proposed course of study to the Secretary to the High Commissioner for India, General Department. The programme should be accompanied by an official syllabus of the course, if one is available, and by any documentary evidence that the particular course or examination has the approval of the authorities in India. In the absence of such evidence the programme may, if approved by the High Commissioner, be proceeded with, but no study leave allowance will be admissible until the concurrence of the authority concerned in India is received.

Similarly Government servants on leave in the United Kingdom, who desire to have it extended for purposes of study under these rules, should address the Secretary to the High Commissioner for India, but in addition to furnishing a statement of the proposed study they must support their applications with documentary evidence of their having obtained the approval of the authorities concerned in India to their applying for an extension of leave. They must also produce documentary evidence of the concurrence of the authority concerned in India to the grant of study leave and/or study allowance.

6 A. No course of study will be recognised as qualifying for the grant of study allowance, or for study leave for any other purpose, unless it has been approved in at least broad outline by the sanctioning authority in India in accordance with rules 5 and 6 above, and unless, in cases where it has not been found possible to submit full particulars to the authorities in India, it has been approved in detail by the High Commissioner before it is begun".

4. All securities deposited for Salt Credits should be made over to the Imperial Bank of India in Calcutta or the branch of the Imperial Bank of India at Chittagong, as the case may be, for safe custody, the Collector arranging to draw interest as it falls due from the Bank treasury.

7. The value of the securities should be verified once a month by the Treasury Officer by comparison with the money market reports in the newspapers.

8. The Salt Credit accounts will be worked in a similar manner to the Personal (or Floating) Deposit accounts maintained in the Calcutta Custom House.

9. The date on which credits fall due should be noted and watched in form B referred to in paragraph 6 above. The greatest possible care should be taken to insist on all accounts being adjusted punctually at the end of the period of credit. SHIPPING.

Simla, the 26th May 1928.

No. 238-S. (87).—The following report of inspection of the Indian Mercantile Marine Training Ship "Dufferin" by the Governing Body of the Ship is published for general information :—

"In accordance with rule 10 of the rules for the management of the Indian Mercantile Marine Training Ship 'Dufferin,' the Governing Body made a formal inspection of the Ship on the afternoon on Monday, April 16th, 1928.

The following members of the Governing Body were present :—

Captain E. J. Headlam, C.S.I., C.M.G., D.S.O., R.I.M., *Chairman.*

F. B. Lory, Esq., Director of Public Instruction, Bombay.

Narotam Morarjee, Esq.

Maulvi Abul Kasem, M.L.C.

D. J. MacGillivray, Esq.

M. A. Master, Esq., B.A., LL.B.

Kaikobad Cowasjee Dinshaw, Esq., J.P.

J. L. P. Roche-Victoria, Esq.

Certain alterations, improvements and repairs suggested by the Captain Superintendent were considered and are embodied in the minutes of the meeting held after the inspection.

The Governing Body were much impressed by the smart, healthy and happy appearance of the cadets and of the marked improved physical development shewn by all.

The ship was in a most clean and satisfactory condition and shewed a high state of efficiency.

The Governing Body would like to take the opportunity of, on this their first formal inspection, reporting to the Government of India how successful in all its branches they consider the experiment of establishing a training ship for the Merchant Service has been so far.

This success the Governing Body consider has been in a very large measure due to the cadets themselves who have cheerfully and willingly accepted the somewhat stringent discipline of a sea life and shown great keenness and zeal for their new life. It is most pleasant to record that their general behaviour has been exemplary.

The Governing Body desire to place on record their very high appreciation of the services of the Captain Superintendent and his Officers and Scholastic Staff, especially of the services of the Head Master Mr. Jones, the Chief Officer Lieutenant-Commander S. Campbell, the Second Officer Mr. H. W. Davies and Assistant Master R. D. Sathe, all of whom have taken the keenest interest in their duties and in the welfare and instruction of the cadets. The success of such a training ship must in all its branches depend most largely upon the Captain-Superintendent, who is responsible not only for the training of the cadets but for the discipline and welfare of all on board ; in this connection the Governing Body consider that the highest praise is due to Commander H. A. B. Digby-Beste, O.B.E., R.I.M., who while maintaining the necessary discipline on board has worked unflaggingly in the interests of the scheme and for the comfort and welfare of his staff, the cadets and the Ship's Company.

The Governing Body feel also that the present happy and zealous spirit which is so apparent among the cadets is greatly due to Commander Digby Beste's tact and sympathetic kindness combined with firmness in dealing with the cadets and in the intense interest he takes in their welfare and progress."

*Officers of the Indian Agricultural Service, the Indian Veterinary Service, the Imperial Forest Service, and the Europe-recruited branch of the Indian Service of Engineers are only eligible for rewards for passing the 1st class and 2nd class Interpretership examinations. A statement to this effect should be furnished by the candidate's superior officer when forwarding the candidate's application. The new tests, *viz.*, the Preliminary, the 2nd class and 1st class Interpreterships, correspond in standard to the old Higher Standard, Proficiency and High Proficiency, respectively, and an officer who has passed any of the latter tests will not be eligible to sit for the corresponding new tests in the same language.

No. 1497 Mis.—The 8th June 1928.—In supersession of all previous rules issued on the subject the Governor in Council is pleased to make the following revised rules for the regulation of appointments in the clerical service of the Secretariat of the Government of Bengal and certain Government offices in future.

A. CASSELLS,
Secretary to the Government of Bengal.

Rules for the regulation of appointments in the clerical service of the Secretariat and certain other offices of the Government of Bengal.

The clerical service of the Secretariat of the Government of Bengal is divided into two divisions—the Upper Division and the Lower Division.

Upper Division.

2. The Upper Division of the clerical service in the Secretariat is graded as follows:—

(*a*) Rupees 125 a month on probation for two years.

(*b*) After confirmation a time-scale of pay, Rs. 150—10—250—15—400, with an efficiency bar at the stage of Rs. 250.

(*c*) Two selection grades, one of Rs. 325—25—400 alongside the above time-scale, and another of Rs. 425—25—500 beyond it. The former selection grade is limited to 15 per cent. of the number in the Upper Division.

Special pay of Rs. 100 per mensem attaches to certain of the posts of Head Assistants.

3. Vacancies which occur in the Upper Division of each department will be filled by the following methods:—

(*a*) Direct recruitment of candidates by means of a competitive examination which will be the same as that prescribed for the recruitment of the Bengal Civil Service (Executive) and other services in Bengal. The rules regulating the recruitment of these services will apply in the case of direct recruitment of the Upper Division of the Secretariat. These rules may be obtained on application from the Appointment Department of this Government.

(*b*) Selection of suitable Europeans or Anglo-Indians. The educational attainments required of such candidates will be the Intermediate Examination, the Senior Cambridge Local Examination, the Cambridge Senior School Certificate Examination or a certificate that the candidate has passed the final examination of the advanced Commercial Classes. In this case preference will be given to graduates.

(*c*) Promotion from the Lower Division.

No clerk in the Lower Division, however, has, as a matter of right, any claim to promotion in the Upper Division, which will be given strictly according to merit.

One-third of the vacancies in the Upper Division will be filled by method (*c*). So long as all the assistants in the Lower Division, who were recruited previous to April 1910 and are considered fit for promotion to the Upper Division, have not been provided for, this proportion of one-third may be exceeded. The relaxation of this rule of one-third will not, however, override the provisions of rule 14 as regards the appointment of Muhammadans, nor will it affect the appointment of Anglo-Indians to the special branch of the Political Department of this Government.

4. For the purpose of the selection of candidates under rule 3 (*b*), the Director of Public Instruction shall be asked to submit, in consultation with the authorities of European colleges and schools, the names of two or three candidates for each vacancy who possess the qualifications prescribed. From among these a selection will be made by the Secretaries at a meeting.

5. Candidates selected under rule 3 (*a*) and 3 (*b*) will be on probation for two years, during which they will draw pay at the rate of Rs. 125 per month. Candidates selected under rule 3 (*c*) will on confirmation commence at Rs. 170 in the time-scale of Rs. 150—10—250—15—400 for the Upper Division.

Lower Division.

6. (1) The lower division of the clerical service of the Secretariat is graded as follows:—

(*a*) Rupees 60 a month on probation for two years.
(*b*) After confirmation a time-scale of pay, Rs. 65—4—145—145—150, with an efficiency bar at the stage of Rs. 105.
(*c*) Selection grade of Rs. 175—25—200 for clerk of special merit (limited to 10 per cent. of the Lower Division in each Department) who have passed at least three years on the maximum of the time-scale.

The bar in the time-scale will apply in the case of those clerks who are employed on purely routine work, such as despatcher, sorter, recorder, indexer, diarist, inter-departmental clerk, file-keeper, etc.

(2) The lower posts of clerical service in the offices specified in rule 20 are graded as follows:—

(*a*) Rupees 45 a month on probation for two years.
(*b*) After confirmation a time-scale of pay—
(*i*) in the office of the Board of Revenue, Rs. 50—3—65—4—105—5—140, with an efficiency bar at the stage of Rs. 85;
(*ii*) in the office of the Inspector-General of Police Rs. 50—3—65—4—125, with an efficiency bar at the stage of Rs. 85.
(*iii*) in other offices, Rs. 50—3—110—5—120, with an efficiency bar at the stage of Rs. 80.
(*c*) There are certain posts on higher scales of pay in all these offices to which assistants of merit in the lower scale may be promoted.

7. The vacancies which occur in the Lower Division of the departments of the Secretariat will be filled up by means of a competitive examination. In special cases, as laid down in rules 13 and 14, appointments may be made by nomination.

8. The examination will be held in the month of August of each year. The arrangement for the examination will be made by the Central Examination Committee, Bengal, who will be assisted by paid examiners, and will act in communication with the Secretary to the Government of Bengal, Finance Department.

9. Candidates will be required to produce evidence that they have been through a complete secondary school course. In the case of Europeans and Anglo-Indians, applicants may be accepted who have obtained the elementary school certificate and have taken the supplementary commercial course prescribed by the European Schools Code. Every candidate must submit before the 15th July a written application for permission to appear at the examination.

10. The application under the last rule shall be in the form given below, and must be accompanied by a treasury receipt for the sum of Rs. 10. This sum the candidate is required to pay into the treasury nearest his place of residence by way of examination fee **and in no circumstances will this sum be refunded.**

Any vacancy occurring after the examination and before the first day of the following April will be offered through the Finance Department to the remaining

candidates in the list in the same way. Vacancies occurring after the 1st April in any year will be reserved for competition at the examination in the ensuing August.

General.

13. The head of an office will retain the power of appointing men of special ability or aptitude to any post in the office, when on account of the special requirements of the post or of other exceptional circumstances the post cannot be filled in the ordinary way. An appointment under this rule should be made in consultation with the Appointment Department in the case of an upper division post and with the Finance Department in the case of a lower division post.

14. (*1*) The head of an office will also reserve the power of appointing suitable Muhammadans to either the Upper Division or the Lower Division. In the case of the Upper Division of the Secretariat every third appointment in each office made under rule 3 shall ordinarily be given to a Muhammadan, provided he has obtained qualifying marks in the competitive examination referred to in rule 3 (*a*). In this Division such selection shall be made only when there is no suitable Muhammadan candidate in the competitive examination to whom the post can be offered. This rule shall not operate to give preference in any vacancy to a Hindu candidate over a Muhammadan candidate who has secured higher marks at the examination.

(*2*) Until the proportion of Muhammadans in the various offices reaches one-third, the claims of qualified Muhammadan candidates shall be considered in filling up all vacancies.

15. If at any time during the period of probation, or at its close the probationer's work is not considered satisfactory by the head of the office in which he is employed, he may be discharged and will have no claim to either gratuity or compensation. If, however, he was admitted from another office he may be reverted to his former appointment, or if this is not practicable, transferred to another appointment on the same pay.

16. Every probationer, before appointment, will be required to produce a statement showing to whom he is related or connected in the office in which he desires to serve. If any wilful inaccuracy is subsequently detected in this declaration, the person making it will be liable to be discharged from Government service.

17. Promotion of clerks in the Upper Division is regulated by seniority and merit combined, but in the higher grades more importance will be attached to merit.

18. Every appointment is made subject to the production of a medical certificate from the Presidency Surgeon, who is entrusted with the duty of examining candidates for appointment in the particular office to which the probationer has been appointed.

19. Temporary vacancies in the Secretariat shall ordinarily be filled from the list of candidates who have qualified at the clerkship examination, but it should be distinctly understood that such temporary employment gives no claim to permanent employment.

HIGH COURT NOTICES.

ENGLISH DEPARTMENT—CIVIL.

The 12th June 1928.

No. 8285G.—The following revised rules made by the High Court of Judicature at Fort William in Bengal, under the powers vested in it by section 6 of the Legal Practitioners Act, 1879 (XVIII of 1879), are published for general information :—

Rules.

Revised Rules for the training of Legal Practitioners in the Subordinate Courts.

1. On and after the 1st January 1930, no person shall be admitted as a Pleader in the Courts subordinate to the High Court, unless he has served as a probationer for a period of one year, either at the headquarters of a district or in one of the subdivisions thereof, in conformity with the following rules, or is not eligible thereunder, or has not satisfied the requirements thereof.

2. Any person, who has obtained the degree of Bachelor of Law of one of the Universities of Calcutta, Dacca, Madras, Bombay, Patna, Allahabad and the Punjab, or of the Muslim University of Aligarh, or of the Benares Hindu University, shall be enrolled as a probationer, provided that his application to serve as a probationer be made within one year from the date of his obtaining such degree, or within such further time as the High

Court may for special reason allow, and provided that a Bachelor of Law of the University of Madras, Bombay, Allahabad, and the Punjab, of the Muslim University of Aligarh and of the Benares Hindu University so applying has passed an examination held under the direction of the District Judge in reading, writing, and speaking the vernacular of the district in which he intends ordinarily to practise.

NOTE.—The period of one year referred to in this rule shall count from the date of the applicant's diploma.

3. The application mentioned in the last foregoing rule shall be addressed to the District Judge of the district in which the applicant desires to practise, and it shall specify the Pleader with whom and the Court in which the applicant desires to serve as a probationer, and shall be accompanied by a certificate from the Pleader stating that he is willing to take the applicant as a probationer : Provided that no Pleader who is not a practising Pleader of more than five years' standing, or does not ordinarily practise at the headquarters of a district, or in one of the subdivisions thereof, shall be eligible to take a probationer, and no Pleader shall be permitted to entertain more than one probationer at one time ; and provided also that permission shall not be granted to serve as a probationer in any Court which is not at the headquarters of a district or of a subdivision thereof.

4. On receipt of the application mentioned in the last foregoing rule, and if it is in order, the District Judge to whom it has been made shall grant the permission applied for and shall cause the particulars to be entered in a register to be kept in his office.

5. The applicant shall then, during and for a period of one year, serve as a probationer with the Pleader and in the Court in respect of whom and which the said permission has been granted.

6. During the period of probation aforesaid, the probationer shall work with the Pleader in and outside Court. Such work shall be limited to acting only, and shall not extend to pleading, and the general nature thereof shall be that of assisting the Pleader in his professional work as Pleader.

7. During the period of probation aforesaid, the probationer shall also attend the Court regularly and shall notify his attendance therein daily to such officer as the District Judge in the case of service at the headquarters of a district, or the Senior Munsif in the case of service at the headquarters of a subdivision, may appoint for the purpose. It shall be the duty of such officer to note the attendance of the probationer in a register to be kept for the purpose.

8. The probationer shall ordinarily work with one and the same Pleader throughout the period of his probation, and the Pleader shall ordinarily be one in continuous practice throughout such period. In case where necessity may arise, the service may be with different Pleaders for successive periods, but the total period of probation must in no case be less than a year, and no such service shall be recognised, unless it has been with the permission of the District Judge, obtained previously and in the manner indicated in rules 3 and 4 above.

9. During the period of probation aforesaid, the probationer may be excused absence for a portion or portions thereof, provided the Pleader with whom or the Court in which the probationer is to serve is satisfied that there is good cause for such absence, and that the training of the probationer will not materially suffer therefrom. In any other case, the deficiency will have to be made up by serving for such further period, not longer than the actual period of absence, as may be necessary in the opinion of the Pleader or of the Court as the case may be.

10. A Pleader who is permitted to take a probationer will be allowed to charge a fee of Rs. 50 for his remuneration for the training he gives to the probationer, and may refuse to give a certificate of his willingness to take the probationer unless he receives the same in advance. In case, however, of the Pleader not being able to retain the probationer for the full period of probation with him, the probationer will be entitled to a refund of an amount in proportion to the uncompleted portion of the service with such Pleader.

11. Every probationer shall, during the whole period of his probation, be exclusively employed by the Pleader in his proper business and practice as such.

12. On completion of the period of probation as aforesaid, the probationer shall file with the District Judge a certificate in Form A of the Schedule from the Pleader and a certificate in Form B of the Schedule from the Judge of the district or the Senior Munsif in the subdivision as the case may be, along with his application for admission as a Pleader mentioned in the next rule : Provided that the Judge of the district or the Senior Munsif of the subdivision, should he entertain a doubt as to whether the probationer has diligently worked as such, may, before giving such certificate, subject the probationer to an examination as regards procedure, and should he not be satisfied as a result of that examination that the probationer has served with diligence, may direct him to continue as a probationer for a further period not exceeding three months.

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for May 1928.

I. **Character of the season.**—During the month under review the rainfall was general over the Presidency. Precipitation was above the normal in fifteen districts and below the normal elsewhere. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Preparatory tillage for and sowing of winter paddy in seedbeds commenced in West and North Bengal. Sowings of autumn paddy and jute were finished in East and parts of North Bengal, while elsewhere the operations were proceeding favourably. The progress of sowings was satisfactory on the whole. Weeding of autumn crops was proceeding briskly in East and parts of North Bengal.

III. **State of standing crops.**—On the whole the standing crops were greatly improved by the rainfall of the month.

IV. **Prospects and probable outturn.**—The outlook of standing crops including deep water paddy was generally promising.

V. **Damage to standing crops.**—No appreciable damage except that by hailstorm in parts of Cooch Bihar State and in Rangpur was reported.

VI. **Condition of agricultural stock.**—The condition of live-stock was generally fair. Sporadic cases of cattle-disease were, however, reported from seventeen districts.

VII. **Failure of pasturage and fodder.**—Fodder was reported to be insufficient from parts of the 24-Parganas, Nadia, Murshidabad, Jessore, Burdwan, Birbhum, Rajshahi, Dinajpur, Malda and Dacca.

VIII. **Prices of food-grains.**—During the second fortnight of the month the retail price of common rice of the cheapest quality rose in seven districts, fell in six and remained stationary in the rest of the Presidency. It varied from 4¾ seers per rupee in Rangpur to 7½ seers in Chittagong.

IX. **Condition of agricultural population.**—The condition of agricultural population was, on the whole, fair except in parts of Nadia, Murshidabad, Birbhum, Bankura, Dinajpur and Malda where distress continued to prevail owing to a partial failure of the winter rice crop. Test and other relief works continued to help the people of these places.

No. 129T.-P.H.—The 14th June 1928.—In exercise of the power conferred by section 290 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Government of Bengal (Ministry of Local Self-Government) are pleased to make the following rules subject to which the Commissioners of the Suri Municipality in the district of Birbhum may allow communication pipes to be laid down from the service pipes of the Commissioners for the purpose of leading water to premises for domestic purposes only :—

Rules.

So long as the Commissioners deem it practicable and consistent with the maintenance of an efficient water-supply, they may allow any owner or occupier of a holding paying a water-rate imposed under the provisions of Part VII of the Bengal Municipal Act, 1884, on the annual value of such holding, when such annual value is not less than Rs. 96, to lay down communication pipes from the service pipes of the Commissioners for the purpose of leading water to such holding for domestic purposes only, subject to the following rules and conditions :—

1. The owner or occupier of any holding requiring water to be laid on to such holding for domestic purposes, or requiring any addition or alteration to an existing water-supply, must apply for the same on a printed form to be supplied, free of cost, at the Municipal Office.

2. A fee of Rs. 150 must be paid to the Commissioners by such owner or occupier for each connection to a municipal main supply pipe or a common communication pipe laid in accordance with rule 3 before any work is commenced, such fee to be in addition to all other costs and charges imposed under these rules.

3. Except as provided below, each holding must have a separate connection to the municipal main supply pipe, and extensions from the communication pipe of one holding to another holding shall not be permitted :

Provided that, with the consent of the Commissioners in meeting, connections to two or more holdings may be permitted from a common communication-pipe. Any such communication-pipe must be laid in a street or common passage, and a stop-cock and meter as provided for in rule 7 must be fixed on the connection to each holding ;

Provided also that no holding shall have more than one separate connection, but if in any case the Commissioners are satisfied that an adequate supply to any holding cannot be given through a single connection, they may sanction a second connection thereto.

4. The owner or occupier of the holding in respect of which the connection is required must pay the entire cost of the connection, including the supply and fixing of the fittings referred to in rule 7, and must also pay the cost of such alterations in, or repairs to, roads, drains, sewers, gas or water mains or pipes, and the cost of such other works as may be necessitated by, or result from, the work of making such connection.

5. The owner or occupier of the holding to which a connection has been given must, at any time, on receipt of notice to do so from the Commissioners, pay the entire cost of any repairs or alterations to the connection or any part thereof that the Commissioners may consider necessary to put it into a satisfactory condition or which may be necessitated by any change in the municipal waterworks or system of distribution, or by the defective condition of the connection or any part thereof, or by any other cause whatsoever.

6. (*1*) The works required under rules 4 and 5 may, at the option of the Commissioners, either be carried out by the Commissioners themselves at the expense of the owner or occupier of the holding in respect of which the works are required, or may be carried out by a person or firm employed by such owner or occupier and approved by the Commissioners.

(2) No work shall be carried out under sub-rule (*1*) except under the supervision of a municipal officer.

7. A holding connection shall comprise the following parts or fittings :—

(*a*) a brass or gun-metal ferrule inserted in the main supply pipe ;
(*b*) a galvanized iron communication pipe from the ferrule to the meter ;
(*c*) a stop-cock and its surface-box ;
(*d*) a meter ;
(*e*) service pipes from the stop-cock to the taps ; and
(*f*) taps.

8. (1) All the fittings referred to in rule 7 shall be exact duplicates of standard samples kept in the office of the Commissioners and approved by them in meeting.

(2) All fittings shall be inspected and tested and stamped by an officer of the municipality before being fixed.

(3) If any owner or occupier shall desire to adopt any fitting of a pattern different from the standard patterns, he must present such fitting for the approval of the Chairman, and any fittings so presented may, it considered satisfactory by the Chairman, be stamped, and samples thereof may be purchased and placed among the standard fittings.

9. The holding connection, when fitted in position, must be capable of standing a pressure of 100 feet, and no water shall be supplied until it has stood such a test applied by the Commissioners.

10. The size of the ferrule, and the diameter of the communication pipe referred to in clauses (*a*) and (*b*) of rule 7, and the number of taps shall be fixed in accordance with the annual valuation of the holdings as follows :—

Annual valuation of holding.			Size of ferrule.	Diameter of communication pipe.	Number of taps.
	Rs.	Rs.	Inch.	Inch.	
under	200		... $\frac{1}{4}$	$\frac{1}{2}$	1

,,	400 ,,	599	... $\frac{3}{8}$	$\frac{5}{8}$	3
,,	600 ,,	899	... $\frac{3}{8}$	$\frac{5}{8}$	4
,,	900 ,,	1,199	... $\frac{1}{2}$	$\frac{3}{4}$	5
,,	1,200 ,,	1,499	... $\frac{5}{8}$	$\frac{7}{8}$	6

From Rs. 2,000 and over—An extra tap for every additional Rs. 1,000, and when necessary, a corresponding increase in the size of ferrule or tee piece on the municipal main and in the diameter of communication pipe.

11. (1) On every communication pipe a brass or gun-metal stop-cock having the same waterway as such pipe shall be placed as near as practicable to the point where that pipe enters the holding to be supplied.

(2) The stop-cock shall be built in a brick chamber provided with a cast-iron surface cover-box so designed that it can be locked, and the key of this box shall remain under the control of the Chairman.

(3) The stop-cock shall be capable of adjustment so that the supply to the holding may be regulated thereby.

12. (1) The meter shall be placed as near to the stop-cock as possible and in a position where it can be conveniently examined.

(2) The meter must be fixed in a brick chamber covered over with a cast-iron surface box of approved pattern, with locking arrangements. The key of this box shall remain under the control of the Chairman.

13. Neither the stop-cock nor the meter must be placed in any private premises.

14. (1) The Commissioners shall depute an authorised person to read every meter not less than once a quarter and shall give notice to the occupier at least twenty-four hours before the reading is recorded.

(2) In the event of a meter ceasing to register, the quantity of water consumed during the period the meter had stopped to register shall be calculated on the basis of the average consumption of water of the holding for the last four quarters.

15. (1) Every owner or occupier of any holding, in respect of which a connection has been made under these rules, shall be entitled to a supply of—

(a) 2,000 gallons of water per quarter for each rupee, and

(b) a further proportionate number of gallons per quarter for every additional fraction of a rupee, paid by him quarterly as water-rate in respect of such holding.

(2) For all water in excess of the amount allowed under sub-rule (1) such owner or occupier shall be charged quarterly as follows :—

	Per 1,000 gallons Rs.	A.
(a) For any excess quantity of water not exceeding one-half of the amount of the allowance prescribed in sub-rule (1) ...	0	8

(d) For any excess quantity of water exceeding twice the amount of the allowance prescribed in sub-rule (1)	1	4

16. The Commissioners may cut off the connection between any waterworks of the municipality and any holding to which water is supplied from such works, or may turn off such supply, in any of the following cases, namely :—

(a) if the holding is unoccupied ;

(b) if the occupier refuses to admit any officer duly empowered in that behalf into the holding for the purposes of making any examination or inspection authorised under this Act or prevents such officer from making such examination or inspection ;

(c) if the owner or occupier of the holding touches or interferes with his meter in any way except with the permission of the Chairman, or wilfully or negligently injures or damages it ;

(d) if the owner or occupier of the holding wilfully or negligently permits waste of water in such volume as will, in the opinion of the Chairman, endanger the water-supply in the neighbourhood ;

(e) if the owner or occupier of the holding shall refuse or neglect to pay any of the fees or charges imposed in accordance with these rules for a space of fourteen days after he has been served with a notice of demand for the same ;

(f) if the owner or occupier of the holding constructs or fixes any cisterns, tanks, reservoirs, taps, pipes or any other works in connection with the water-supply not authorised by these rules ;

(g) if the pipes, taps, ball-cocks, cisterns, or any other parts of the connection are, in the opinion of the Commissioners, in a leaking condition or in a state of disrepair :

Provided that such disconnection or turning off of water-supply shall not relieve any person from any liabilities which he may have incurred under these rules.

In the circumstances contemplated in clause (d) an officer authorised by the Commissioners in this behalf by a general order shall have the power to turn off the supply for a period not exceeding eight hours on his previously recording his reason in writing.

17. Every tap shall be of the same size as the pipe to which it is attached and shall be of brass and of the pattern known as "Screwdown". Every tap shall be at least 3 feet above the surface of the ground beneath.

18. No cistern, tank, or reservoir of any description which is intended to be supplied with water from the municipal waterworks shall be permitted to any holding except with the sanction of the Commissioners in meeting, and such sanction shall distinctly specify the dimensions and capacity of the cistern, tank or reservoir allowed. The inlet to every such cistern, tank or reservoir must be controlled by an efficient ball-cock so that the discharge thereinto is completely stopped when the cistern, tank or reservoir is full. Any taps fed from such cistern, tank or reservoir must be included in the number of taps allowed under rule 10.

19. No connection shall be permitted to any holding unless and until the owner or occupier makes effective provision to the satisfaction of the Commissioners for draining all waste water away.

NOTIFICATIONS.

No. 779T.-F.—The 14th June 1928.—In exercise of the power conferred by sub-rule (*1*) of rule 4 of the Civil Services (Governors' Provinces) Delegation Rules, 1926, the Governor in Council and the Governor acting with his Ministers are pleased to make the following rules regulating the conditions of service of provincial and subordinate services and of officers holding special posts:—

Rules.

1. For the purposes of these rules—

(1) *Appointed on probation* means appointed on trial in or against a substantive vacancy.

(2) *Probation* means a Government servant appointed on probation. A Government servant so appointed (and continuing in service) remains a probationer until he is confirmed.

2. Where it is intended that first appointment to a service or post shall normally be on probation, the period of probation shall be prescribed in the rule regulating the pay of that service or post.

3. For special reasons (which should be recorded) the appointing authority may extend a probationer's prescribed period of probation by a further period not exceeding half the prescribed period. A period of probation may not be further extended without the special orders of Government, obtained on a recommendation made by the appointing authority.

4. When a probationer is about to complete the period of probation prescribed under rule 2 the appointing authority shall record an order either confirming him with effect from the date of his completion of the prescribed period of probation or extending his period of probation or discharging him. Similarly, when a probationer is about to complete an extended period of probation, the appointing authority shall record an order either confirming him with effect from the date of his completion of the extended period of

probation or discharging him, unless he has meantime received orders of Government sanctioning a further extension of the period of probation :

Provided that, if he has not on the date of expiry of the extended period of probation received the orders of Government on a recommendation made under rule 3, the appointing authority shall defer his order until those orders are received ; the probationer meantime being permitted to continue in service.

NOTE 1.—The term "discharge" in this chapter includes, in the case of a probationer appointed by promotion from another service or post, reversion to that service or post.

NOTE 2.—A recommendation that a period of probation should be extended by Government should be submitted in such time as to enable the orders of Government to reach the appointing authority before the date of expiry of the subsisting extended period of probation.

5. Save pending the receipt of the orders of Government on a recommendation made under rule 3, a probationer may at any time be discharged from service by the appointing authority, if considered by that authority to be unsuitable for the service or post to which he was appointed, but the order of discharge (except when passed by Government) shall not be given effect to till it has been submitted to and confirmed by the next higher authority.

6. An order discharging a probationer shall indicate the grounds for the discharge, but no formal proceedings, such as are prescribed for the removal or dismissal of Government servants who are not probationers, shall be necessary.

7. No appeal shall lie against an order discharging a probationer.

8. A probationer may not be confirmed until he has served on probation for the period prescribed under rule 2, passed any test or examination the passing of which may by rule be prescribed as a condition of confirmation in the service or post in which it is proposed to confirm him, and been declared by the appointing authority to be fit for confirmation.

9. No increment of pay beyond the pay prescribed for the period prescribed under rule 2 may be drawn by a probationer until he is confirmed.

10. When a probationer is confirmed otherwise than with effect from the date of expiry of the period of probation prescribed under rule 2, he will, unless it be otherwise provided by rule, draw as from the date of effect of his confirmation the pay he would have drawn had he been confirmed on the expiry of the prescribed period of probation, and, unless it be otherwise provided by rule, the whole of his service from the date of his appointment on probation shall count for increments.

All existing rules and orders relating to the conditions of service of provincial and subordinate services and of officers holding special posts, in so far as they are not inconsistent with these rules, are hereby confirmed.

No. 786T.-F.—The 15th June 1928.—In exercise of the power conferred by sub-rule (*1*) of rule 4 of the Civil Services (Governors' Provinces) Delegation Rules, 1926, the Governor in Council and the Governor acting with his Ministers are pleased to make the following rules regulating conditions of service of Provincial and Subordinate Services and of officers holding special posts. They supersede rule 29 of the Fundamental Rules so far as concerns such services and officers, and they shall be deemed to have come into force with effect from the 9th March 1926 :—

Rules.

1. When a Government servant is ordered to be reduced to a lower stage in a time-scale, the authority passing the order shall include in the order—

(*i*) a statement of the period for which the reduction is to remain in force ; and

(*ii*) a statement whether on the expiry of the period the Government servant's previous service in the stage of the time-scale from which he was reduced, and the period during which the orders of reduction were in force, shall count for increment in whole or in part or not at all. If the former statement be not made, or be not clear, the period of reduction shall expire on the termination of the period at the close of which the officer would have drawn his next increment had the order of reduction not been passed ; and if the latter statement be not made, or be not clear, the Government servant shall be entitled, on the expiry of the period of reduction, to count towards increment his previous service in the stage of the time-scale from which he was reduced, and the period during which the orders of reduction were in force.

2. When a Government servant is ordered to be reduced to a lower grade or post, and is subsequently promoted or reinstated, his previous service in the grade or post from which he was reduced counts for increment, unless the authority promoting or reinstating him declares that it shall not so count, either in whole or in part. The period during which the orders of reduction were in force does not count for increment upon promotion or reinstatement.

The Dacca-Chittagong Trunk Road runs close to the site of the school. It is healthily situated and occupies a picturesque site.

2. The Principal is charged with the general control of the school and the maintenance of discipline.

3. The school, which is ranked as a major institution, is affiliated to the Survey Education Advisory Board, Bengal, for the Survey Final and the Amin Examination.

5. The total number of admission to the first year course shall not exceed 50, of whom not more than ten may be special students; for the second year course not more than 30 shall be admitted in any one year, and not more than 5 of these may be special students.

6. The full course of instruction extends over two years. The session for the first year course, which corresponds to the Aminship standard, begins from the 1st August and terminates on the 31st July of the following year.
